**What are the key risks that are specific to the Issuer?**

Set out below is a summary of the most material risk factors specific to the Issuer:

- Changes in global trade policy, including the introduction of new tariffs, quotas, customs delays, or regulatory divergences, particularly in the context of significant US tariffs, ongoing post-Brexit adjustments and geopolitical tensions, could result in increased input costs, supply chain disruptions or reduced demand for exports. While the Company primarily invests in UK private companies, many of these portfolio companies may operate within international supply chains, rely on imported goods and services, sell products into overseas markets, or otherwise be affected by global events. In such instances, the impaired profitability and growth prospects of affected portfolio companies could potentially reduce the value of the Company's investments which could have an adverse effect on the value of the Company's portfolio. There is no guarantee that future changes to trade policy, whether implemented by the UK, its trading partners, or international bodies, will not have a material adverse effect on the performance of the Company's investee companies or on the ability of such companies to compete effectively in their respective markets.
- The current conflicts in the Middle East and Ukraine and, in respect of the latter, the resulting sanctions imposed on the Russian Federation by various countries around the world, may have unforeseen, long-term and far-reaching consequences for the global economy and the Company's portfolio of investments. In particular, the interruption and/or limitation in the supply of certain natural resources (such as oil and gas) could have a negative impact on the performance of the Company's portfolio of investments.
- Investments made by the Company are predominantly in companies whose shares are not publicly traded or readily marketable and, therefore, may be difficult to realise. Such investments may also be highly volatile and, therefore, be exposed to losses if realisation is required when falls in value have been experienced. As a result, the Company may be subject to substantial losses in relation to these investments, which could have an adverse effect on Investor returns.
- The Company intends to pay dividends as the portfolio matures. Over time, it seeks to achieve an average dividend payment of 5p per Ordinary Share per annum, although this may vary significantly from year to year. The Company aims to be in a position to make such payments from the realisation of its investments, or, to a lesser extent, income received from its investments. The Company's ability to pay dividends is not guaranteed and, in any event, the income received from the Company's investment portfolio, whether prior to or after being fully invested, may not meet the Company's current expectations. As a result, paying out dividends may erode the capital value of the Company. The ability to pay dividends to Investors is subject to, among other things, the existence of realised profits, adequate distributable reserves, legislative requirements and the available cash reserves of the Company. There can be no assurance that any dividends or distributions will be paid in respect of any financial year or period and no guarantee as to the level of any future dividends or distributions to be paid by the Company. To date, the Company has paid dividends totalling 8p per Ordinary Share.

**What are the key risks that are specific to the Issuer?**  
(CONTINUED)

- The Company invests in companies that are “qualifying” for VCT purposes as defined by the VCT rules. Such companies are generally private companies that have a higher risk profile than larger “blue-chip” companies. The Company invests in companies with gross assets of not more than £15 million immediately prior to investment and £16 million immediately after the investment (£30 million immediately prior to investment and £35 million immediately after the investment for investments taking place after 6 April 2026) and with fewer than 250 employees (or 500 employees in the case of companies that are “Knowledge Intensive Companies” for VCT purposes) at the point of investment. Such investments usually involve specific deal structuring and depend on the accuracy of due diligence. Standards of corporate governance in private companies are generally lower than in quoted investments and are often dependent on minority investor protections. These investments involve a higher degree of risk than would investments in larger or longer-established businesses and can result in substantial losses for the Company. The failure or underperformance of such companies in the Company’s portfolio could have an adverse effect on Investor returns.
- Corporate or UK Government bonds (in which the Company may, if permitted, invest) are loans to a company or UK Government (“counterparty”). Should the counterparty to a loan become bankrupt or be unable to pay back the loan, the Company may lose some or all of such an investment. Corporate bonds and corporate bond funds are exposed to the risks of changes in bond yields, particularly for medium and longer-dated securities. Capital values may fall as a result of rises in comparative bond yields after an investment is made, or as a result of the worsening of the perceived creditworthiness of bond issuers. Any of these factors could have an adverse effect on Investor returns.
- The Company has no employees, and the Directors have all been appointed on a non-executive basis. Accordingly, the Company is reliant upon the knowledge and expertise of and the provision of services by its investment manager, Puma Investment Management Limited (the “Investment Manager”), and suitably incentivised key persons within the investment management team, who will select and execute the Company’s investments. The Company’s future success, therefore, depends on the continued service of these investment professionals (or their replacements from time to time) who are not obligated to remain employed by the Investment Manager, and the Investment Manager’s ability to recruit and retain personnel, which are all processes that the Company has no control or influence over. If not suitably incentivised such personnel are at risk of leaving the employment of the Investment Manager, to the detriment of the Company, particularly when there is a tight labour market. A failure of the Investment Manager to retain or recruit appropriately qualified personnel may have a material adverse effect on the Company’s performance, the net asset value and the price of the Ordinary Shares.
- Any change in government, economic, fiscal or monetary policy, in particular government policies and spending reviews resulting in changes to existing policies, tax legislation and the venture capital schemes, changes to the current level of interest rates and background levels of inflation, could materially affect, directly or indirectly, the operation and performance of the Company and/or its investments and/or the value of, and returns from, Ordinary Shares and/or the Company’s ability to achieve or maintain its VCT status. While the UK Government has extended the VCT scheme’s “sunset clause” to 5 April 2035, thereby continuing the availability of VCT tax reliefs for qualifying shares issued up to that date, there is no assurance that the scheme will be further extended beyond this date.

#### Amount of Offer

The Offer Shares will be offered at the offer price, payable in full upon application and calculated using the below allotment formula. The Company is proposing to raise up to £20,000,000 pursuant to the Offer (with a maximum raise of £30,000,000 if the over-allotment facility is utilised in full).

#### Pricing of the Offer Shares

The number of Ordinary Shares to be issued to each applicant will be calculated based on the following allotment formula:

Number of Offer Shares = amount subscribed (being the total application amount remitted), less:

- the initial fee payable to the Investment Manager in respect of its role as promoter in connection with the Offer
- the fees agreed between an Investor and their financial adviser for being given advice in respect of their subscription for Ordinary Shares in the Company under the Offer (the "Adviser Charge")

divided by the latest published NAV per Ordinary Share as at the date of allotment, adjusted for any subsequent dividends for which the record date has passed, rounded down to the nearest whole Ordinary Share.

Investors should receive income tax relief on their full subscription amount.

Subject to any discounts given, the initial fee payable by the Company to the Investment Manager is 3% of the investment amount.

The Offer opens on 9 December 2025 and will close no later than 2 April 2026 for Ordinary Shares to be allotted in the 2025/2026 tax year (with the deadline for online applications being 12 noon on 1 April 2026 and 5pm on 25 March 2026 for paper applications) and no later than 26 November 2026 for Ordinary Shares to be allotted in the 2026/2027 tax year (with the deadline for online applications being 12 noon on 25 November 2026 and 5pm on 17 November 2026 for paper applications). The Directors, in their absolute discretion, may decide to increase the Offer by a further £10,000,000 (such that the maximum Offer is £30,000,000), close the Offer earlier or extend the closing date to a date no later than 1 December 2026.

It is expected that the admission to trading on the London Stock Exchange's main market for listed securities of the Ordinary Shares that are the subject of the Offer will become effective within ten business days of their allotment.

#### Expenses charged to the Investor

The estimated expenses charged to the Investor by the Company are as follows:

##### Investor not receiving financial advice

Under the Offer, for any Investor who is not advised by a financial adviser or has elected to settle their Adviser Charge direct, the costs of the Offer will be the initial fee payable to the Investment Manager attributable to the subscription for Ordinary Shares. This is the amount equal to 3% of the subscription monies received by the Company in respect of that Investor's application (any lower amount being at the discretion of the Investment Manager). Although this is not an expense charged directly to an Investor by the Company, it is charged to the Company by the promoter.

##### Investor receiving financial advice

Under the Offer, an Investor who is advised by a financial adviser and has agreed that the Company (through its Receiving Agent/Registrar) should make the payment of their initial or one-off Adviser Charge on their behalf, the costs of the Offer will be: (i) the initial or one-off Adviser Charge (subject to a maximum of 5% of the total application amount remitted); and (ii) the initial fee payable to the Investment Manager attributable to the subscription for Ordinary Shares, which is the amount equal to 3% of the subscription monies received by the Company in respect of that Investor's application after having first deducted any Adviser Charge.

**Under which conditions and timetable can I invest in this security?**  
(CONTINUED)

The payment of the initial or one-off Adviser Charge agreed between the Investor and their adviser is made by the Company on behalf of the Investor (through its Receiving Agent/Registrar) immediately following the subscription for Offer Shares. The payment of such Adviser Charge is reflected in the number of Offer Shares received by the Investor through the allotment formula.

The Company (or its Receiving Agent/Registrar) does not facilitate the payment of ongoing Adviser Charges.

Costs and commissions

Out of the initial fees the Investment Manager will be responsible for paying initial and trail commission to execution-only brokers.

Commission is permitted to be paid to authorised financial intermediaries under the rules of the FCA in respect of execution-only clients where no advice or personal recommendation has been given. Such authorised financial intermediaries who, acting on behalf of their clients, return valid application forms bearing their stamp and FCA number, will usually be entitled to an initial commission of 0.6% of the amount payable in respect of the Ordinary Shares allocation for each application by the Promoter. Additionally, provided that such intermediary continues to act for the client and the client continues to be the beneficial owner of the Ordinary Shares, such authorised financial intermediaries will usually be paid an annual trail commission by the Promoter of 0.6% of the net asset value for each such share for five years, subject to prevailing rules and regulations. The Investment Manager may, in certain circumstances, agree to pay enhanced commission over and above these terms, but any such enhanced commissions will not be payable by either the Investors or the Company, but by the Promoter.

The Directors may, at their discretion, allow an enhanced share allocation for Investors who have invested in other Puma VCTs or for any other Investors at their discretion. Any such enhanced allocation will, effectively, be paid for by way of a reduction in the initial fee payable on that share application.

**Dilution**

The existing issued Ordinary Shares will represent 53.56% of the enlarged Ordinary Share capital of the Company immediately following the Offer, assuming (i) the Offer is fully subscribed, including the over-allotment facility, (ii) with an Offer Price based on the applicable NAV per Ordinary Share for allotment of 93.21p, (iii) an initial fee of 3% applies to all subscriptions, and (iv) no adviser fees are payable, and on that basis Shareholders who do not subscribe under the Offer will, therefore, be diluted by 46.44%.

**Why is this Prospectus being produced?**

The reason for the Offer is to enable the Company to raise funds and then use a minimum of 80% of the proceeds of the Offer to acquire, over a period not exceeding three years (and subsequently maintain), a portfolio of Qualifying Investments in accordance with its published investment policy.

Assuming a full subscription of £30,000,000 of Ordinary Shares (with the over-allotment facility fully utilised) and an initial fee of 3% applies to all subscriptions, the estimated maximum net proceeds of the Offer is £28.9 million.

The Offer is not subject to an underwriting agreement.

No conflict of interest is material to the Offer or to admission to trading on the London Stock Exchange's main market for listed securities.

# Risk factors

---

Prospective Investors should consider carefully the following material risk factors, as well as the other information in this Prospectus, before investing. Prospective Investors should read the whole of this Prospectus and not rely solely on the information in this section entitled Risk factors. The business and financial conditions of the Company could be adversely affected if any of the following risks were to occur, and as a result, the market price of the Ordinary Shares could decline and Investors could lose part or all of their investment, which needs careful consideration.

Prospective Investors should be aware that the value of Ordinary Shares can fluctuate and that they may not get back the full amount they invest. In addition, there is no certainty that the market price of Ordinary Shares will fully reflect the underlying Net Asset Value per Share, that Shareholders will be able to realise their shareholding or that any dividends will be paid. An investment in the Company should be viewed as a higher-risk, longer-term investment.

The Directors would like to draw to the attention of potential Investors the following risk factors which may affect an investment, the Company's performance and/or the availability of tax reliefs. The Company and the Directors consider the following risks to be material for prospective Investors, but the risks listed below do not necessarily comprise all those associated with an investment in the Company. There may be additional risks and uncertainties which are currently unknown to the Company and the Directors (such as changes in legal, regulatory or tax requirements), or which the Company and the Directors currently believe are immaterial, but which may have a materially adverse effect on the financial condition or prospects of the Company or on the market price of Ordinary Shares.

## Risks relating to the Ordinary Shares

- It is anticipated that the Ordinary Shares issued pursuant to the Offer will be admitted to the Official List and will be traded on the London Stock Exchange's market for listed securities. The secondary market for VCT shares is generally illiquid and there may be a limited market in the Ordinary Shares. Investors may, therefore, find it takes longer to realise their investment, or that they cannot obtain a price for their Shares that reflects the underlying NAV of the Ordinary Shares, or that they cannot realise their investment. Investors should also not rely upon the stated buyback policy of the Company (from time to time) as a way of realising their investment at the underlying NAV. This can negatively affect the expected gain on an Investor's investment if they are unable to trade their Shares at values which reflect the underlying NAV.
- Investors who sell their Ordinary Shares within five years of allotment will have to repay some or all of their initial 30% income tax relief (reducing to 20% income tax relief for subscriptions on or after 6 April 2026) depending on the sale proceeds and it is, therefore, probable that the market in the Ordinary Shares will be illiquid for at least five years. Additionally, buyers of Ordinary Shares on the secondary market would not benefit from the initial subscription tax relief so would not be incentivised to buy Ordinary

Shares from existing shareholders (and would be more incentivised to subscribe for new Ordinary Shares in order to benefit from such tax reliefs). Investors should note, therefore, that disposing of the Ordinary Shares in the short term could have negative tax implications.

- The rates of, bases of, and reliefs from, taxation are subject to change, which could be retrospective. Any changes in tax treatment relating to the Company as a VCT or its investee companies (including to the rates of, bases of, and reliefs from, taxation) could affect the VCT status of the Company and the VCT tax benefits available to Shareholders, which consequently may affect, directly or indirectly, the value of, and net returns to Shareholders from, Ordinary Shares. Investors are advised to take their own independent financial advice on the tax aspects of their investment. While the UK Government has extended the VCT scheme's "sunset clause" to 5 April 2035, thereby continuing the availability of VCT tax reliefs for qualifying shares issued up to that date, there is no assurance that the scheme will be further extended beyond this date.

#### **Risks relating to the Company**

- Changes in global trade policy, including the introduction of new tariffs, quotas, customs delays, or regulatory divergences, particularly in the context of significant US tariffs, ongoing post-Brexit adjustments and geopolitical tensions, could result in increased input costs, supply chain disruptions or reduced demand for exports. While the Company primarily invests in UK private companies, many of these portfolio companies may operate within international supply chains, rely on imported goods and services, sell products into overseas markets or otherwise be affected by global events. In such instances, the impaired profitability and growth prospects of affected portfolio companies could potentially reduce the value of the Company's investments, which could have an adverse effect on the value of the Company's portfolio. There is no guarantee that future changes to trade policy, whether implemented by the UK, its trading partners, or international bodies, will not have a material adverse effect on the performance of the Company's investee companies or on the ability of such companies to compete effectively in their respective markets.
- The current conflicts in the Middle East and Ukraine and, in respect of the latter, the resulting sanctions imposed on the Russian Federation by various countries around the world, may have unforeseen, long-term and far-reaching consequences for the global economy and the Company's portfolio of investments. In particular, the interruption and/or limitation in the supply of certain natural resources (such as oil and gas) could have a negative impact on the performance of the Company's portfolio of investments.
- Even though central banks have started to reduce their interest rates, they are still relatively high, and there can be no certainty that they will continue to fall. Interest rate policy dictates that rates will be set to restrict the ability of the UK economy to grow while inflationary pressures persist (as in other major economies). The continuation of relatively high interest rates presents significant challenges and may adversely affect the performance of companies in which the Company may invest, which in turn may adversely affect the performance of the Company. This may also negatively impact the number or quality of investment opportunities available to the Company. All of these could have a material adverse impact on the future investment returns of the Company, the price of the Ordinary Shares and the ability of the Investment Manager to find and realise suitable investments.
- Investments made by the Company may be in companies whose shares are not publicly traded or readily marketable and, therefore, may be difficult to realise. Such investments may also be highly volatile and, therefore, be exposed to losses if realisation is required when falls in value have been experienced. As a result, the Company may be subject to substantial losses in relation to these investments, which could have an adverse effect on Investor returns.
- The Company, its service providers, including in particular, the Investment Manager, and its portfolio companies rely heavily on information technology systems for their respective operations, including the storage and processing of sensitive data. As such, the Company and, in particular, its portfolio companies which may be early stage and may have limited resources to implement robust cybersecurity measures, are exposed to risks associated with cyber threats and cybercrime, including,

but not limited to, unauthorised access to IT systems, data breaches, phishing attacks, ransomware, and other forms of cyber-attack or disruption. A successful cyber-attack could result in the loss or theft of confidential or commercially sensitive information, disruption of operations, reputational damage, regulatory investigations, and potential financial loss, which could in turn negatively impact the value of the portfolio and the NAV per Share. Although the Company, the Investment Manager and its service providers employ security protocols and work with third-party providers to mitigate such risks, no assurance can be given that these measures will be sufficient to prevent all cyber incidents. Any such occurrence could adversely impact the value of the Company's investments and its overall performance.

- The Company invests in companies that are "qualifying" for VCT purposes as defined by the VCT Rules, being companies with gross assets of not more than £15 million immediately prior to investment and £16 million immediately after the investment (£30 million immediately prior to investment and £35 million immediately after the investment for investments taking place after 6 April 2026) and with fewer than 250 employees (or 500 employees in the case of a Knowledge Intensive Company) at the point of investment. Such companies are generally private companies that have a higher risk profile than larger "blue-chip" companies. Such investments usually involve specific deal structuring and depend on the accuracy of due diligence. Standards of corporate governance in private companies are generally lower than in quoted investments and are often dependent on minority investor protections. These investments involve a higher degree of risk than would investments in larger or longer-established businesses and can result in substantial losses for the Company in the event that these investments fail or underperform. The failure or underperformance of such companies in the Company's portfolio could have an adverse effect on Investor returns.
- Unquoted investments of the Company will be valued at fair value in accordance with the IPEV Guidelines. However, in many cases valuations may take into account stock market price earnings ratios for the relevant industry sectors, as discounted for non-marketability. The general disruption caused by global macroeconomic events including but not limited to the war in

Ukraine, energy prices, inflation and interest rates, and the impact of those events on the stock markets globally, may make the valuation of the Company's investments on an ongoing basis more difficult and less realisable. This could have a negative effect on the Company's NAV, which in turn can decrease the value of the Ordinary Shares and reduce Investor returns.

- In relation to unquoted investments in software and other technology businesses, with the increasing use and importance of Artificial Intelligence (AI) for the collection, processing and use of information and the development of products (especially of applications and digital tools), the ability of developments in AI to quickly outpace products and processes (both existing and those that are currently being developed) may have a material effect on the valuation of such software/technology businesses. Products and technologies developed by such businesses may prove not to be commercially or technically successful (including the risks of such technologies not becoming generally accepted by the market or otherwise obsolescent). The difficulty of assessing such businesses and their technologies (and those of competitors) may make the valuation of those businesses (which are often valued at a high multiple of their revenues) on an ongoing basis, and the realisation of such businesses, more difficult. This could have a negative effect on the Company's NAV, which in turn can decrease the value of the Ordinary Shares and reduce Investor returns.
- The Company intends to pay dividends as the portfolio matures. Over time it seeks to achieve an average dividend payment of 5p per Ordinary Share per annum, although this may vary significantly from year to year. The Company aims to be in a position to make such payments from the realisation of its investments or, to a lesser extent, income received from its investments. The Company's ability to pay dividends is not guaranteed and, in any event, the income received from the Company's investment portfolio, whether prior to or after being fully invested, may not meet the Company's current expectations. As a result, paying out such a dividend may erode the capital value of the Company. The ability to pay the targeted dividends is subject to, among other things, adequate distributable reserves, legislative requirements and the available

cash reserves of the Company. To date, the Company has paid out total dividends of 8p per Ordinary Share. There can be no assurance that any dividends or distributions will be paid in respect of any financial year or period and no guarantee as to the level of any future dividends or distributions to be paid by the Company.

- Investment in unquoted companies, by its nature, involves a higher degree of risk than investment in listed companies. In particular, small companies often have limited product lines, markets or financial resources and may be dependent on a small number of key individuals for their management. They may also be more susceptible to political, exchange rate, taxation and other regulatory changes. In addition, the market for securities in smaller companies is usually less liquid than that for securities in larger companies, so there may be potential issues in valuing securities in such companies, leading to potential difficulties in their acquisition and disposal. Returns for the Company investing in such securities may, therefore, be uncertain and involve a higher degree of risk than investment in a listed or larger company and, consequently, have an adverse effect on investment returns of the Company from those investments, and the price of the Ordinary Shares.
- Any change in government, economic, fiscal or monetary policy, in particular government policies and spending reviews resulting in changes to existing policies, tax legislation and the venture capital schemes, changes to the current level of interest rates and background levels of inflation, could materially affect, directly or indirectly, the operation and performance of the Company and/or its investments and/or the value of, and returns from, Ordinary Shares and/or the Company's ability to achieve or maintain its VCT status. A failure to maintain its VCT status could affect the ability of the Company to raise further money and make follow-on investments. Therefore, there is a risk that the Company's interest in a portfolio company may become diluted or the portfolio company may fail or fail to perform as anticipated.

#### Risks concerning VCTs and tax relief

- There can be no guarantee that the Company will maintain full VCT status. If the Company loses its approval as a VCT before Investors have held their Shares for five years, the income tax relief obtained will have to be repaid by such Investors. Following a loss of VCT status, an Investor would be taxed on dividends paid by the Company and, in addition, a liability to capital gains tax may arise on any subsequent disposal of their Ordinary Shares.
- The Directors are committed to maintaining the Company's VCT status, but there can be no guarantee that the Company will fulfil the criteria to obtain, or to enable it to maintain, full VCT status thereafter. If the Company loses its approval as a VCT before Investors have held their Shares for five years, the 30% income tax relief obtained (reducing to 20% income tax relief for subscriptions on or after 6 April 2026) will have to be repaid by such Investors. Following a loss of VCT status, an Investor will be taxed on dividends paid by the Company, a liability to capital gains tax may arise on any subsequent disposal of Shares by an Investor and the Company will be subject to corporation tax on any gains it makes. This will limit the cash available to the Company to pay dividends and make further investments, thereby potentially negatively affecting Shareholder returns.
- Following legislative changes, restrictions imposed in relation to the non-qualifying investments that may be held by VCTs have been clarified. The Non-Qualifying Investments described in this document, that may be held by the Company, are based on the current interpretation of applicable legislation and practice following advice received by the Company from its advisers. However, there is a risk that HMRC's interpretation of what constitutes a permitted non-qualifying investment may be more restrictive. If HMRC determines that the Company has breached the VCT Rules, there is a risk that the Company will lose its VCT status and Shareholders will, therefore, suffer the negative consequences as set out above.
- The Finance Act 2018 introduced a new "risk-to-capital" condition for Qualifying Investments, designed to focus investments towards earlier-stage, growing businesses and away from investments that could be regarded as lower

risk. The Company may not make any prohibited non-qualifying investments, including those which breach the “risk-to-capital” condition, and the potential penalty for contravention of these rules can include loss of VCT status with a resultant clawback of VCT tax reliefs from Investors. HMRC has stated that VCT status will not be withdrawn where an investment is ultimately found to be non-qualifying if, after taking reasonable steps including seeking advice, a VCT considers that an investment is qualifying. However, HMRC may require rectification of the breach, which may mean that the VCT is forced to dispose of the investment at a loss, thereby negatively affecting the NAV of the Company and overall Shareholder returns.

- It was also announced in the Autumn Budget on 26 November 2025 that the rate of income tax relief available on new VCT subscriptions will reduce from 30% to 20% for investments made on or after 6 April 2026. Investors should consider the impact of this adjustment when assessing the potential tax benefits of VCT investment.
- It is possible for Investors to lose their tax reliefs by themselves taking or not taking certain steps. For instance, investors who sell their Ordinary Shares within five years of such Ordinary Shares being allotted to them will have to repay some or all of their initial income tax relief depending on the sale proceeds.
- There may also be constraints imposed by VCT legislation on the realisation of investments by the Company in order to maintain the Company's VCT tax status, as not less than 80% (by value) of its investments must be held in VCT qualifying companies, and such requirements could have an adverse effect on Investor returns.

#### **Risks relating to the types of investment the Company may make pursuant to its investment policy**

- Investments made by the Company may be in businesses whose shares are not publicly traded or readily marketable and, therefore, may be difficult to realise. The fact that a share is traded on AIM or AQSE (if applicable) does not guarantee its liquidity. There may also be constraints imposed on the realisation of investments to maintain the VCT tax status of the Company. These factors may have an adverse effect on investment returns of the Company from those investments, and the price of the Ordinary Shares.

- The Company may construct for itself a diversified portfolio of such investments. These underlying investments in the portfolio may be highly volatile and therefore be exposed to losses if realisation is required when falls in value have been experienced. Some of these investments may not be regularly traded on an exchange, which may impact upon the accuracy of the determination of the net asset value of these investments. These investments may also be illiquid and, therefore, difficult to realise. As a result, the Company may be subject to substantial losses in relation to these investments, which could have an adverse effect on Investor returns.

- It can take a number of years for the underlying value or quality of the businesses of smaller companies, such as those in which the Company invests, to be fully reflected in their market values, which are often also materially affected by general market sentiment, and which can be negative for prolonged periods. This may adversely affect the performance of the Company in the shorter term.

- The Company's portfolio of investments may be subject to market fluctuations including but not limited to changes in inflation and interest rates. There can be no assurance that appreciation will occur or that losses will not be incurred. The ability of the Company to return funds to Shareholders may be adversely affected by illiquidity in underlying assets. It may be difficult to deal in investments for which there is no recognisable market, or to obtain reliable information about their value or the extent of the risks to which such investments are exposed. These factors could have an adverse effect on Investor returns.

- Securities held by the Company may have redemption or lock-in periods that affect liquidity and which could result in the premature or delayed realisation of investments, thereby reducing the returns of each Shareholder in the more immediate future.

- Corporate or UK Government bonds (in which the Company may, if permitted, invest) are loans to a company or the UK Government (“counterparty”). Should the counterparty to a loan become bankrupt or be unable to pay back the loan, the Company may lose some or all of such an investment. Corporate bonds and corporate bond funds are exposed to the risks of changes in bond yields, particularly for medium

and longer-dated securities. Capital values may fall as a result of rises in comparative bond yields after an investment is made, or as a result of the worsening of the perceived creditworthiness of bond issuers. Any of these factors could have an adverse effect on Investor returns.

- Investments in private companies, usually with limited trading records, require specific deal structuring and detailed due diligence, the conclusions of which may subsequently be shown to be incorrect. Standards of corporate governance in private companies are generally lower than in quoted investments and are often dependent on minority investor protections, which the Company is able to negotiate in advance. While investments in private companies can offer opportunities for above-average capital appreciation, these investments involve a higher degree of risk than would investments in larger or longer-established businesses and can result in substantial losses. Each of these factors could have an adverse effect on the returns to Investors.
- Underlying investment funds in which the Company may, if permitted, invest, may utilise such investment techniques as option transactions, concentrated portfolios, margin transactions, short sales and futures and forward contracts and other leveraged or derivative transactions, which practices can, in certain circumstances, significantly exacerbate any losses and so cause a diminution in the Company's assets which may impact Company and Investor returns.
- Higher-income-yielding investments do not always return the initial capital intact. Companies that offer higher yields usually carry higher risk than lower-yielding companies and may offer higher yields only to compensate for these greater risks. The risk of substantial losses in the repayment of the initial capital may impact Company and Investor returns.

- Businesses in which the Company invests may incur unplanned costs and delays as a result of statutory and regulatory requirements, which may prevent them from fulfilling their business plans as originally intended and thereby reduce the level of returns to the Company. Any of these factors could have an adverse effect on Investor returns.
- The level of returns from investments may be reduced if there are delays in the investment programme, such that part of the net proceeds of the Offer is held in cash or cash-based similarly liquid investments for longer than anticipated, or if the investments cannot be realised at the expected time and values.

#### **Risks related to the Investment Manager**

- The past performance of the Investment Manager or other funds, products or services it manages or advises or provides is no indication of its future performance. Any underperformance of the Investment Manager in securing the investment of the Company's funds, or the management or the realisation of the underlying investments of the Company may have a material adverse effect on the Company's performance and/or result in the Company not achieving or maintaining its VCT status, which may adversely affect Investor returns and the value of the Ordinary Shares.
- The Investment Manager provides discretionary and advisory investment management services to the Company in respect of its portfolio of investments. If the Investment Manager does not perform its obligations in accordance with the agreement regulating the provision of these services, the performance of the Company and/or its ability to achieve or maintain VCT status may be adversely affected. Shareholders have no direct right of action against the Investment Manager.
- The Company has no employees and the Directors have all been appointed on a non-executive basis. Accordingly, the Company is reliant upon the knowledge and expertise of and the provision of services by the Investment Manager, and suitably incentivised key persons within the investment management team, who will select and execute the Company's investments. The Company's future success,

therefore, depends on the continued service of these investment professionals (or their replacements from time to time) who are not obligated to remain employed by the Investment Manager, and the Investment Manager's ability to recruit and retain personnel, which are all processes that the Company has no control or influence over. If not suitably incentivised such personnel are at risk of leaving the employment of the Investment Manager, to the detriment of the Company, particularly when there is a tight labour market. A failure of the Investment Manager to retain or recruit appropriately qualified personnel may have an adverse effect on performance of the Investment Manager, which may have a material adverse effect on the Company's financial performance, the Net Asset Value and the price of the Ordinary Shares.

# Forward-looking statements

---

Investors should not place undue reliance on forward-looking statements. This Prospectus includes statements which are (or may be deemed to be) “forward-looking statements”, that can be identified by the use of forward-looking terminology including the various terms “believes”, “continues”, “expects”, “intends”, “aims” “may”, “will”, “would”, “should” or, in each case, their negative or other variations or comparable terminology.

These forward-looking statements include all matters that are not historical facts. Such statements involve risk and uncertainty because by their nature they relate to future events and circumstances. Save in relation to statements concerning working capital adequacy, forward-looking statements contained in this Prospectus, based on past trends or activities, should not be taken as a representation that such trends or activities will continue in the future. Any forward-looking statements in this Prospectus do not in any way seek to qualify the working capital statement set out in paragraph 6.13 of Part 5 of this document, and such statements will be updated as and when required by FSMA, the UK Prospectus Regulation, the UK Listing Rules, the DGTR and UK MAR, as appropriate.

This Prospectus contains references to the intention or expectation of the Company to pay dividends and over time to seek to achieve an average dividend payment of 5p per Share per annum, although this may vary significantly from year to year. The Company expects to be in a position to make such payments from income received from the realisation of its investments, or, to a lesser extent, income received from its investments. The Company’s ability to pay dividends, and the amount and timing of such dividends, are not guaranteed and are subject to adequate distributable reserves, legislative requirements and the available cash reserves of the Company. Accordingly, no profit forecast is to be inferred from or implied by such statements.

## GOVERNING LAW

---

Unless otherwise stated, statements made in this Prospectus are based on the law and practice currently in force in England and Wales.

## NON-MAINSTREAM POOLED INVESTMENT STATUS AND UK MIFID LAWS

---

As the Company is a closed-ended investment company, the Ordinary Shares will be “excluded securities” under the FCA’s rules on non-mainstream pooled investments. Accordingly, the promotion of the Ordinary Shares is not subject to the FCA’s restriction on the promotion of non-mainstream pooled investments. The Company intends to conduct its affairs so that its Ordinary Shares can be recommended by Financial Advisers to retail investors in accordance with the rules on the distribution of financial instruments under the UK MiFID Laws. The Directors consider that the Ordinary Shares should be considered “non-complex” for the purposes of MiFID.

## MARKET ABUSE REGULATION

---

UK MAR sets out requirements relating to insiders, director dealings and market soundings. In particular, directors, Persons Discharging Managerial Responsibilities (PDMRs) and Persons Closely Associated (PCAs) with them must notify the Company of any transaction in the Company’s shares. There is also a restriction on dealing in the Company’s shares during a closed period. UK MAR also stipulates that public disclosure of inside information by the Company must be done without delay (other than in limited circumstances). The FCA must be formally notified following the announcement of any delay.

The Directors are aware of their obligations under UK MAR and the Company has a share dealing policy and a procedure to comply with the requirements set out in UK MAR.

## WEBSITES

---

Without limitation, neither the content of the Company’s or the Investment Manager’s website (or any other website referred to in this Prospectus) nor the content of any website accessible from hyperlinks on the Company’s or the Investment Manager’s website (or any other website referred to in this Prospectus) is incorporated into or forms part of this Prospectus.

## WITHDRAWAL

---

The Company may update the information provided in this Prospectus by means of a supplement, if a significant new factor that may affect the evaluation by prospective Investors occurs after the publication of this Prospectus or if this Prospectus contains any material mistake or substantial inaccuracy. Any such supplement will be subject to approval by the FCA and will be made public in accordance with the Prospectus Regulation Rules. In the event that the Company is required to publish a supplementary prospectus prior to the Admission of any Offer Shares, applicants who have applied for Ordinary Shares under the Offer shall have the right to withdraw their applications for Shares made prior to the publication of the supplementary prospectus. Such withdrawal must be made within the time limits and in the manner set out in any such supplementary prospectus (which shall be at least two clear Business Days following the publication of the relevant supplementary prospectus). If the application is not withdrawn within the stipulated period, any offer to apply for Ordinary Shares under the Offer will remain valid and binding.

# Overview of Puma Alpha VCT plc

## INVESTMENT EXPERTISE

The Investment Manager is part of an organisation that raised its first private equity fund in 1996 and has a 29-year track record of investing in small and medium-sized enterprises in the UK.

Puma Alpha VCT is one of 15 Puma VCTs that have been established since 2005 with, most recently, Puma AIM VCT plc being successfully launched in September 2024, having raised some £6 million in its maiden launch in a difficult AIM market. As a series, the Puma VCTs and Puma's EIS offers have invested into over 65 VCT/EIS qualifying companies with over 40 full exits – including Pure Cremation in 2021 (at a 4x multiple with an internal rate of return of 71% having increased revenue 7.4x since first investment), Tictrac and Sunlight Education Nucleus (SEN), both in 2022, and Capital Karts (a Puma EIS investment) in 2024. In aggregate, across the Company, Puma VCT 13 and Puma Alpha EIS, £38 million of investments (both new and follow-on) have been made in the last 12 months.

Puma Alpha VCT has been expanding its portfolio, and now has 24 positions in qualifying companies, the largest investment being in CameraMatics, which continues to perform strongly. The Company has most recently made investments into Runa Network, a provider of infrastructure for digital payments, YASO, a provider of operating systems for global brands operating in China, LOVE CORN, the leading UK snack brand sold in over 20,000 stores across the UK and US, and Hub Box, an infrastructure technology business which provides the software allowing online retailers to offer out-of-home delivery options. In addition to these new portfolio companies, the Company has also made six follow-on investments, into Pockit, Lucky Saint, CameraMatics, TravelLocal, NRG Gyms and Thingtrax in the last 12 months. The Investment Manager's cash management strategy in non-qualifying holdings is also making a positive contribution to the VCT.

The Company looks for scale-up businesses with a proven commercial proposition (product or service) and management teams with deep knowledge of the sector in which they operate. When examining potential investment targets, the Investment Manager will focus on leadership quality, the proposition's commercial validity, the potential market opportunity and clarity of the growth plan.

## DIVERSIFICATION OF PORTFOLIO

The Company's sector-agnostic investment mandate offers portfolio diversification and allows the Investment Manager to source opportunities across the market. It also offers some protection against factors such as high interest rates (which remain relatively high despite being reduced in the UK in August 2025), which also remain relatively high in other global economies and are expected to stay high in the near term. The Investment Manager believes that it is likely to depress current values – potentially dramatically – as has been seen in a number of competitor funds.

The Investment Manager focuses on more prudently managed growth strategies across a range of sectors, which is expected to provide some cushioning against this effect.

The Company is able to co-invest alongside other Puma Funds, enabling swifter deployment of funds while giving Investors access to a wider pool of investments.

## TAX RELIEFS

As with all VCT investments, investors should benefit from:

- up to 30% income tax relief for subscriptions up until 5 April 2026 and 20% income tax relief for subscriptions on or after 6 April 2026 available to UK taxpayers on an investment of up to £200,000 per tax year;
- 100% tax-free dividends; and
- 100% tax-free capital gains on the sale of Company shares.

## INCOME STRATEGY

The Company aims to pay dividends from time to time, funded by realised investments.

## ECONOMIC SUPPORT

Investors in Puma Alpha VCT support the UK economy by providing growth funding to small and medium-sized businesses. To date, Puma Alpha VCT has invested more than £25 million in over 20 UK VCT qualifying businesses (with the investment in one of those businesses – Tictrac – having subsequently been sold by the Company for a significant uplift).

9 December 2025

**Dear Investor**

**I am pleased to announce that following the successful launch of Puma Alpha VCT in 2019 and its further fundraisings since (which have together raised more than £38 million before issue costs), the Board has decided to re-open Puma Alpha VCT for investment by new and existing Shareholders.**

Over the last 12 months the Company has been very active, and has made a number of additional investments into existing and new portfolio companies. The number of portfolio companies has increased from 18 as at 31 August 2024 to 24 as at the date of this document in a variety of sectors including: logistics technology, consumer, financial and insurance technology, consumer services, software and other technology, HR technology and business services, with the largest position being CameraMatics, which continues to perform strongly. CameraMatics provides GPS tracking, high-definition vehicle camera and compliance solutions for large fleet managers.

In the last 12 months, the Company has made investments into Semeris, an AI-powered document analysis business selling to large asset managers and banks, Runa Networks, a provider of infrastructure for digital payments, YASO, which runs an operating system for global brands to expand in China, NRG Gyms, a profitable gym business expanding across the UK, LOVE CORN, a leading snack brand sold in over 20,000 stores across the UK and US, and Hub Box, an infrastructure technology business which provides the software allowing online retailers to offer out- of-home delivery options. In addition to these new portfolio companies, the Company has also made follow-on investments into Pockit, Lucky Saint, CameraMatics, TravelLocal, NRG Gyms and Thingtrax. The Investment Manager's cash management strategy in non-qualifying holdings has also made a positive contribution to the VCT.

Puma Alpha VCT's broad range of portfolio companies span many industries – from software and computer services to consumer goods. They were chosen for their growth potential and because of their unique characteristics, and together provide a good diversification of sectors, end-customers and business models. I am pleased to be able to offer you, once again, the opportunity to acquire new Shares in the Company.

The Board welcomed the confirmation that the EIS and VCT schemes will now continue until at least

April 2025, following the laying before Parliament of the relevant Treasury Order on 3 September 2024. In the opinion of the Board, this is clear evidence that the Government believes that having a healthy ecosystem of smaller companies is vital to the UK's economy and a key part of its plans for growth.

### Access to growing SMEs using Puma Alpha VCT

No investment is without risk, and for those investors who are comfortable with the potential risk-reward profile of investing in smaller, scaling companies that seek to grow quickly, a VCT can provide an attractive investment vehicle that is normally the preserve of institutional investors.

Puma Alpha VCT is firmly focused on the scale-up space, because the Company and the Investment Manager believe this will deliver a better risk-adjusted return for the Company's Investors. The Investment Manager has used its compelling proposition to attract scaling businesses across a broad range of sectors and has a healthy pipeline of new investments where the Investment Manager believes it can help add value. Unlike a number of other VCTs, the Company looks for investment opportunities across a range of sectors. The Company takes this approach because it helps mitigate the risk of being overly exposed to any sector-specific challenges (such as regulatory, technological or economic changes, or dominant suppliers or service providers) and it ensures the performance of a single sector does not drive the performance of the entire Company.

While Puma Alpha VCT, therefore, provides access to a diversified range of businesses and sectors, the UK Government recognises the importance – and the potential risks – associated with this type of investment and has, therefore, created a number of tax incentives to encourage investment from UK taxpayers. These tax incentives are summarised below.

### A reminder of the tax benefits

Investors in a VCT gain access to a range of tax incentives, subject to their individual personal circumstances and provided shares are held for at least the five-year qualifying period.

They include:

- up to 30% upfront income tax relief for subscriptions up until 5 April 2026 and 20% income tax relief for subscriptions on or after 6 April 2026 (on investments of no more than £200,000 per tax year);
- tax-free dividends; and
- tax-free capital gains on disposal of the shares.

Investment in a VCT carries risk. Please refer to the risk factors set out on pages 12 to 18 for more information. Investors should consult their independent Financial Adviser before making a decision to invest.

### About Puma Alpha VCT's Investment Manager

Puma Alpha VCT is managed by Puma Investments (the Investment Manager). The Investment Manager and its wider organisation have a 29-year track record of investing in smaller companies and have been managing VCTs since the launch of Puma VCT and Puma VCT II in April 2005.

Puma Investments was initially established to focus primarily on VCT investing, and there has now been a total of 15 Puma VCTs raising over £475 million. Over time, further tax-efficient investment offers have been launched by Puma Investments and, together, the Puma VCTs, Puma EIS and Puma Alpha EIS have raised more than £550 million and invested more than £370 million in over 65 Qualifying Companies, with over 40 full exits. In aggregate, across the Company, Puma VCT 13 and Puma Alpha EIS, £38 million of investments (both new and follow-on) have been made in the last 12 months. The team managing the investments has come from a variety of backgrounds and brings a depth and breadth of skills

that enable the portfolio companies into which the Company invests, to gain knowledge of scaling successful businesses. This depth of expertise – the Directors believe – facilitates strong, rapid growth, which is evidenced in the value creation that the Company has seen in recent years.

### **Our investment approach**

Qualifying Investments comprise, among other things, investments in companies that carry out a qualifying trade (as defined under the relevant VCT legislation) and which must satisfy certain other criteria as set out in the relevant VCT legislation (see page 52 for more details).

For the Company, the Qualifying Investments it makes are in UK unquoted small and medium-sized enterprises that can tangibly evidence strong management and commercial traction. While suitable Qualifying Investments are being identified, the Investment Manager will manage the funds to ensure that the Company has sufficient liquidity to invest in Qualifying Investment opportunities as they arise.

Subject to the Investment Manager's view, and subject to the relevant rules applicable to VCTs, the net proceeds of this Offer will be invested into a range of investments intended to generate a positive return and/or an attractive running yield. Such investments may include fixed income and other securities, funds investing in fixed income or other securities, as well as holding cash and other permitted instruments. The Company is likely to continue holding a proportion of its assets in such investments to manage liquidity. The Investment Manager's focus on retaining diversification, and its national coverage, enable the team to seek out the best opportunities across the country.

In addition to the experience of a potential investee company's management team, other criteria for investment include:

- a proposition that is commercially validated through sales volume; and
- a well-defined market niche and a clear and comprehensive plan for growth.

Puma Alpha VCT also has the option to co-invest alongside other Puma Funds, enabling swifter deployment of funds and giving Investors access to a wider pool of investments. We believe that given the current economic challenges – particularly with interest rates remaining relatively high – our ability to look across the entire market for businesses that can suitably demonstrate resilience, will enable

the team to be opportunistic in seeking the best possible scenarios for investment.

# PART 1 The Offer

## INTRODUCTION

Venture Capital Trusts (VCTs) are companies that are listed on the London Stock Exchange and invest into smaller businesses in order to help them grow. As smaller businesses generally present more risks than larger, more established ones, the UK Government introduced VCTs in 1995 as a way of encouraging investment into these businesses. According to the Association of Investment Companies (the “AIC”), more than £1 billion was invested into VCTs in both the 2021/2022 and 2022/2023 tax years, which represents the highest years of fundraising ever by VCTs. Funding of VCTs in the tax year 2024/2025 was the third highest on record with a figure of £894 million, an uplift from the 2023/2024 tax year, demonstrating that the VCT market continues to see increased investor confidence. Following on from the Chancellor's Autumn Statement on 22 November 2023, the VCT scheme will now continue until at least April 2035.

The Government believes that having a prosperous ecosystem of healthy smaller companies is vital to the UK's economy, and that this type of investment stimulates economic growth and creates more jobs. Investors in a VCT, therefore, not only gain access to a portfolio of growing companies that can potentially deliver attractive returns alongside certain tax reliefs – they can also take advantage of the opportunity to help support the UK's economy. It was announced in the 26 November 2025 Autumn Budget that the existing annual, lifetime and gross assets limits will increase for companies eligible to receive investment from a VCT, meaning qualifying companies will be able to take on more VCT investment, which demonstrates support for start-up and scale-up businesses. The Company will be able to take advantage of the change in these limits when investing in scale-up businesses. However, it was also announced that the VCT income tax relief rate will reduce from 30% to 20% from 6 April 2026.

The following gives a summary of the various benefits that investments into VCTs offer investors.

### Tax incentives

To compensate investors for the risks involved in investing in younger companies, a range of tax incentives are offered on investments of up to £200,000 each tax year – provided investors are eligible to claim such reliefs and the investment is held for at least five years.

These include:

- **Income tax relief:** investors can claim up to 30% upfront income tax relief for subscriptions up until 5 April 2026 and 20% income tax relief for subscriptions on or after 6 April 2026 on an investment of up to £200,000 per tax year.
- **Tax-free dividends:** if the VCT pays dividends, investors will not need to pay tax on those dividends or declare them on a tax return.
- **Tax-free capital gains:** if selling their VCT shares at a profit, investors will not have to pay capital gains tax on the proceeds.

However, it is important to remember that tax treatment depends on individual circumstances and tax rules can change in the future. Tax reliefs also rely on a VCT maintaining its qualifying status, and these reliefs are offered to compensate investors for the risks that VCTs present. For more information on these risks, please see pages 12 to 18.

### Growth potential of VCTs

VCTs invest in smaller, unlisted but often fast-growing companies that adhere to VCT investment criteria set by the UK Government. These companies are at an early stage of their lifecycle, which means they offer the potential to grow significantly: smaller, younger companies can grow much faster than older ones. To reduce the risks they present, however, the Puma VCTs invest only in growing companies that have already proved their product in the marketplace and have reached the scale-up phase of their growth journey, rather than the start-up phase, when they are more likely to fail.

### Diversification

Smaller, unlisted companies follow a different investment lifecycle from mainstream investments, which may be more susceptible to public market fluctuations. Instead, the value of these companies is typically more reflective of their underlying fundamentals. This distinction means that VCT investments can help diversify an investor's portfolio and spread their investment risk. The Company seeks to build up a diversified portfolio of investments.

### Alternative asset class

As well as diversifying risk, VCTs can complement different investments in a portfolio, such as pension plans, Individual Savings Accounts (ISAs) and other longer-term investments. There are restrictions on how much can be invested in a pension, so VCTs can offer a useful alternative to complement retirement planning. The tax-free dividends that VCTs deliver can also provide a valuable source of income within an investor's financial plan.

### Supporting the British economy

Not only do VCTs offer benefits to investors, they also allow investors to support the UK economy. At the start of 2025, there were 5.7 million small and medium-sized enterprises ("SMEs") in the UK, accounting for more than 16.9 million employees and 99.85% of the business population.<sup>1</sup> Given their size, they are important to the UK's overall prosperity, and investing in SMEs helps the economy grow and thrive, fosters innovation and boosts employment.

Puma Investments was initially established to focus on VCT investing, and there has now been a total of 15 Puma VCTs.

Puma Alpha VCT is currently invested in companies in the following sectors: logistics technology, consumer, financial and insurance technology, consumer services, software and other technology, HR technology and business services. Within these seven sectors, the portfolio of companies operate within the following business models: business-to-business, business-to-consumer, business-to-business-to-consumer, and marketplace.

The Company's objective is to provide funding to growing SMEs in the UK, aiming to give Investors exposure to a diverse portfolio of quality operating businesses with strong management teams in sectors providing structural support for growth. Investors into Puma Alpha VCT benefit from the combination of a maturing VCT with an existing portfolio of innovative companies, small enough for exits to potentially generate material increases in value for Investors. The VCT invests in scale-up businesses that have already proved themselves in their market, and targets companies that have the potential to deliver start-up levels of return at lower risk. The average revenue of companies receiving a first-time Qualifying Investment from the Company in the two years to 31 August 2025 was approximately £6.97 million (in the 12 months running up to the point of investment).<sup>2</sup> As at 31 August 2025, approximately 16% of the portfolio (by number) had reached breakeven or profitability.<sup>3</sup> When examining potential investment targets, the Management Team will focus particularly on the quality and experience of the team leading the target business. In addition, it will look for businesses with a proposition that is commercially validated, operating in a well-defined market niche with a clear and comprehensive plan for growth. This will enable Investors to support such companies and capitalise on their success. The Company has a sector-agnostic mandate and seeks to provide funding to assist the growth of a diversified portfolio of investments with exposure to different sectors, customers and operating models, which should allow the Company to capture significant upside from individual positions, but also provide resilience in the event of an economic downturn. With investments currently across seven sectors, Investors can benefit from opportunities and growth across the economy, while reducing the risk of severe loss from any sector-specific challenges. This approach ensures the performance of a single sector does not drive the performance of the entire VCT.

## Diversification across seven sectors as at 31 August 2025

## Diversification across different business models as at 31 August 2025

The Company provides an opportunity for Investors to access a VCT in the early stages of its growth journey. Raising additional funds should enable it to respond to the current climate with agility, building up a portfolio of investments best suited to the economic environment. The Company can also co-invest alongside Puma Alpha EIS and Puma VCT 13 (which have the same investment mandate) and, in some cases, alongside Puma AIM VCT with regard to private company investments, allowing for swifter deployment of funds and giving Investors access to a wider pool of investments. Avoiding the volatility that comes with the riskier start-up space, Puma Alpha VCT aims to provide Investors with attractive but stable returns from more established companies that are still small enough and young

enough to grow and create meaningful investment exits and significant gains.

### Scale-ups not start-ups

Puma Alpha VCT is focused on the scale-up space, because the Company and the Investment Manager believe this will deliver the Company a better risk-adjusted return for its Investors for many reasons, including:

- **Proven concept**

Companies that are moving away from the start-up stage have undergone earlier exhaustive stages of research and development and have overcome the associated hurdles. Such companies are typically progressing towards commercial organisation.

- **Market traction**

We try to back companies that have already established some market presence, and where the proposition has been commercially validated.

- **Data-driven investment decisions**

Scale-ups have an established commercial model and track record. This means there is more data and metrics to underpin and build a well-validated, long-term business model.

- **Faster track to liquidity and potential exit**

By investing in slightly later-stage businesses, there is the potential to achieve an exit after a shorter hold and not to get trapped in very long positions.

Puma Alpha VCT is a VCT that aims to provide a return in the form of dividends and capital growth. The Company has a strong track record. Since inception the VCT has generated an unaudited NAV total return (NAV plus dividends paid) of 3% in five years.

The value of the Company's combined Net Asset Value per Share and dividends as of 31 August (the NAV per Share in each case being the most recently announced (unaudited) NAV prior to 31 August for that year) for the preceding five years was: 120.86p in 2021, 126.13p in 2022, 123.50p in 2023, 112.45p in 2024 and 103.39p in 2025. Past performance is no indication of future results and share prices, their values can go down as well as up and these figures are unaudited.

Despite launching six years ago, the VCT has already paid a dividend of 5p per Ordinary Share following a successful exit from the portfolio company, Tictrac, which delivered a 1.9x return on the money invested, after only 25 months of holding the investment, and paid a further dividend of 3p per Ordinary Share in March 2025.

In order to qualify for VCT funding, investee companies need to have a permanent establishment in the UK, conduct which HMRC refers to as a "qualifying trade" and must meet a financial health requirement. While most trades are allowed, notable exceptions include financial activities, forestry, farming, hotels and energy generation.

Broadly, the Company must invest 80% of the funds raised in Qualifying Investments by the start of the accounting period in which the third anniversary of the date the Shares were issued falls. At least 70% by value of the Company's qualifying holdings will be in holdings of Eligible Shares by the start of the accounting period in which the third anniversary of the date the Shares were issued falls. At least 30% of all new funds raised must be invested in Qualifying Investments within 12 months of the end of the

accounting period in which the Company issued the Shares. Qualifying Investments will be made in companies that are carrying out a qualifying trade, that meet a financial health requirement and have a permanent establishment in the UK, although some may trade overseas. The Qualifying Companies in which investments are made must have no more than £15 million of gross assets immediately prior to the investment and £16 million immediately after the investment (£30 million immediately prior to investment and £35 million immediately after the investment for investments taking place after 6 April 2026), fewer than 250 employees (or 500 employees in the case of a Knowledge Intensive Company) and generally cannot have been trading for more than seven years (or ten years in the case of a Knowledge Intensive Company) at the time of the Company's investment. It must also meet several other conditions to be classed as a VCT Qualifying Investment, further details of which are set out on page 52.

As noted above, the Company is not required to have all its funds invested in Qualifying Investments at any given time, in order to allow for liquidity management. Accordingly, funds not yet invested in Qualifying Investments will be managed with the intention of ensuring the Company has sufficient liquidity to invest in Qualifying Investments as and when opportunities arise.

### The Offer

The Offer seeks to raise £20,000,000, with the Directors having a discretion to increase the Offer to raise up to a further £10,000,000. It is intended that the Offer Shares will be listed in the closed-ended category of the Official List and will be traded on the London Stock Exchange's main market. The Offer will initially open on 9 December 2025 until 2 April 2026. The Offer may close in advance of this date in the event that the maximum subscription is reached or the Directors (at their discretion) decide to bring forward the Initial Closing Date. The Closing Date of the Offer, and the deadline for receiving applications for the final allotment with respect to the Offer, may be extended by the Directors to a date no later than 1 December 2026.

### Reasons for the Offer

The Investment Manager has a healthy pipeline of suitable investment opportunities for the Company, and will fund these from the net proceeds of the Offer as well as its other available cash resources. The Offer is suitable for those seeking to invest primarily in a portfolio of unquoted companies, and has been designed to fund the growth of UK SMEs while enabling the Company and its Investors to benefit from VCT tax reliefs.

### The Investment Manager – a 29-year investment management track record<sup>4</sup>

The Investment Manager and its wider organisation have a 29-year history of investment and asset management. This experience spans a range of asset classes and includes several quoted funds targeting institutional investors. The organisation's first growth capital fund was launched in May 1996, delivering net returns to investors of 76.1% per annum at the point of realisation.

In 2005, the remit of the Puma Funds expanded to include VCTs, and the first Puma VCT was launched that year. Since then, the Puma VCTs have a long track record of investing in qualifying companies. The Puma VCTs, together with Puma EIS and Puma Alpha EIS, have raised over £550 million since 2005. When combined with investments from Puma EIS and Puma Alpha EIS, over £370 million has been invested into over 65 qualifying companies, of which over 40 have been fully exited.

Puma Growth Partners (PGP) is the division of the Investment Manager responsible for deploying the funds raised by the Puma VCTs and Puma's EIS offers into SMEs. PGP specialises in investing into businesses

in order to help them scale up and achieve transformational change. The team runs a sector-agnostic investment mandate to support businesses involved in a range of activities.

Currently, the investment team manages a portfolio of 27 companies across eight sectors, accounting for over £226.6 million of invested capital.

In addition to VCTs and EISs, the Investment Manager also manages the Puma AIM Inheritance Tax Service – which invests in the Alternative Investment Market – and the Puma Heritage Estate Planning Service – which finances professional property developments. These Puma Funds and other services each have a relatively focused strategy – investing in private equity, real estate credit or listed securities – which means the Investment Manager has developed deep expertise in these areas. Since it started investing, the Investment Manager has honed its approach to protect investors' money and achieve impactful investments.

Further information on the funds raised for Puma VCTs and for Puma EIS is set out in the charts below.

<sup>4</sup> The information set out in this section on the Investment Manager has been provided by the Investment Manager – see paragraph 6.19 in Part 5 of this document.

The Investment Manager has over 130 staff across the full breadth of investment and business support roles, including operations, business development, regulatory, legal, finance, risk and monitoring. Being part of the Shore Capital Group, the Investment Manager is able to draw upon a wider network and the resources of a further 130-strong multi-disciplinary team.

The Investment Manager has a strong workplace culture and is committed to fostering a diverse, equal and inclusive culture at all levels, where everyone is treated fairly, and to looking after the welfare of its team. To achieve this, it provides a range of training – including on wellbeing, values, diversity and inclusion – which is delivered by external providers. As part of its evolution, the Investment Manager regularly reflects on and assesses how it is performing in these areas. Earlier this year, the Investment Manager was certified as a B Corp. Furthermore, the Investment Manager was named one of the Top 100 UK's best workplaces in financial services and insurance in 2025 by the independent analysts at Great Places to Work® UK.

#### Deal flow<sup>5</sup>

Over recent years, the Investment Manager has built up an extensive network of brokers, intermediaries and entrepreneurs, all of whom facilitate a high level of deal flow. This is likely to accelerate with the ongoing investment the Investment Manager is making into the size and depth of its investment function including, for example, the expansion of its private equity business to Manchester in early 2023 and to Edinburgh in late 2024. This growth is supported by continued investment into marketing activities, which are designed to drive up awareness and consideration of its propositions. Accordingly, the Investment Manager continues to regularly identify or receive approaches for attractive investment opportunities across a number of sectors. In the last 12 months the Puma Growth Partners team analysed over 600 potential private company investments. The Investment Manager has been operating in this space for a number of years and has a wide network through which it receives deal flow. The Investment Manager's growing activity with the specific mandate being pursued by Puma Alpha VCT has ensured a healthy pipeline of potential investments.

#### Puma Growth Partners' ESG perspective<sup>6</sup>

The Investment Manager is part of the Puma Capital Group which, at an overarching group level, is committed to a range of environmental, social and governance (ESG) principles to help it operate and invest responsibly. Through these principles, it aims to positively impact its internal and external stakeholders and wider communities.

As ESG considerations cover a broad scope, bespoke ESG policies have been produced for each main business division, given their exposure to different opportunities and risks. The business heads in the Investment Manager consider these policies within their division and take them into account where possible when assessing investments or funding opportunities. For the ESG approach to be successful, it is important that it is not only communicated throughout the organisation, but also embedded into its culture and wider business activity.

Puma Capital Group considers that its ESG principles should be dynamic and reflect the changing landscape as it evolves. To achieve this, it will continue to review and update its approach wherever needed, both at an overarching group level and within its business divisions.

## A disposal from the Company's portfolio<sup>8</sup>

### Tictrac

Tictrac was a provider of wellbeing software and services that are designed to engage, inform and enable businesses to take better care of their employees' health and wellbeing. It provided exclusive content to its users, as well as taking information from their wearable fitness trackers to give targeted feedback and action plans. Tictrac had gathered powerful evidence that use of its platform reduces sedentary behaviour among large workforces, with associated positive outcomes for engagement and wellbeing.

Tictrac's main customers were large insurance companies, such as Aviva, Allianz, Prudential, Generali Employee Benefits and Bupa Hong Kong. In 2020, Puma Funds invested £5 million in Tictrac to capitalise on the technology investments made, and to build out its distribution and content provision. The business was subsequently acquired by Dialogue, a large Canadian healthcare business.

### Exit

On 3 May 2022, the Company successfully completed on a sale of its investment and realised a profit. The sale generated a cash multiple of nearly twice the amount invested in Tictrac, equating to an Internal Rate of Return (IRR) of 38% pa, after holding the investment for just over two years.

## Operating in the current economic environment

The Company's portfolio of investments have been facing turbulent times, with macro issues such as the war in the Ukraine, issues with oil prices, inflation and interest rates having risen significantly together with staff shortages.

However, the Investment Manager believes that there are some real opportunities for the Company, both through the existing portfolio and through the opportunity to make new investments at lower valuations.

The Board and the Investment Manager believe that the Company is well placed because of the depth and breadth of commercial expertise of the Investment Manager, the pan-sector investment approach and encouraging investment pipeline. If the economy does go through a period of meaningful turmoil, the Investment Manager believes that it has the necessary expertise to, and can, select the most attractive opportunities (taking into account changes in pricing). The Investment Manager's hands-on approach, which has served the Company well to date, is expected to be the right approach for such a climate.

### Share liquidity

The Ordinary Shares to be issued pursuant to the Offer will be admitted to the Official List and will be traded on the London Stock Exchange's main market for listed securities. The secondary market for VCT shares is generally illiquid, which may be attributable to the fact that initial subscription tax reliefs are not available for VCT shares bought in the secondary market, and because VCT shares typically trade at a discount to NAV. There may not, therefore, be a liquid market and Shareholders may find it difficult to realise their investment. An investment in the Company should, therefore, be considered as a long-term investment.

<sup>8</sup> The information set out in this section on the investee companies previously in the Company's portfolio, and the terms of the relevant exit, have been provided by the Investment Manager – see paragraph 6.19 in Part 5 of this document

In order to improve liquidity in the Shares, the Company intends to pursue an active buyback policy, pursuant to which the Board will consider requests from Shareholders who have held their Shares for five years or more for the Company to buy back their Shares at a discount of 5% to the latest published Net Asset Value per Share (adjusted for any subsequent dividends for which the record date has passed). Buybacks are subject to applicable regulations, market conditions at the time and the Company having both the necessary funds and distributable cash reserves available for the purpose. The making, timing and frequency of any share buybacks will remain at the absolute discretion of the Board. Therefore, Shareholders should not rely upon any share buyback policy to offer certainty of selling their Shares at prices that reflect the underlying NAV.

### Conflicts of interest

The Investment Manager, or any of its officers, employees, agents and affiliates and any person or company with whom they are affiliated or by whom they are employed (each an “Interested Party”), may be involved in other financial, investment or other professional activities which may cause conflicts of interest with the Company. An Interested Party may not be liable to account for any profit made in connection with these activities. For example, and without limitation, an Interested Party may: (a) deal or invest in any investment, whether or not for its own account and notwithstanding that similar investments may be held by the Company; (b) enter into or be interested in any financial or other transaction with any entity, any of whose securities are held by or for the account of the Company; (c) allocate investment opportunities among the funds and accounts it manages in accordance with its internal policies; and (d) arrange for the Company to acquire investments from or dispose of investments to any Interested Party or any investment fund or account advised or managed by any such person. In relation to such transactions, so far as it is within its powers to do so, the Investment Manager will endeavour to ensure that any conflict of interest that may arise in relation to it or any other Interested Party is resolved fairly and in accordance with the conflicts policy from time to time of the Investment Manager.

In the event of a conflict of interest arising, so far as it is within their powers to do so, the Directors will endeavour to ensure that it is resolved fairly and in

accordance with the conflicts policy from time to time relating to the Company. To the extent that the Company intends to invest in a company in which another Puma Fund has invested or intends to invest, the investment must be approved by the Board.

### VCT tax relief

The Directors intend to manage the Company's affairs so that it complies with the legislation applicable to VCTs. In this regard, Shoosmiths LLP (“Shoosmiths”) has been appointed to advise the Company on tax matters generally and, in particular, on its VCT status. Provisional approval of the Company as a VCT was granted by HMRC on 4 September 2020 (with approval taking effect from the date of its first share issue). Where requested, Shoosmiths or other suitably qualified professional advisers will assist the Investment Manager (while reporting directly to the Board) in either seeking confirmation from HMRC of the status of each investment as a Qualifying Investment, or preparing a VCT opinion letter. Where requested, they will also advise on the status of VCT approval. The Company must continue to satisfy HMRC's VCT requirements in order to maintain full approval.

VCTs offer significant tax advantages to individual investors when compared to many other investment products, and also provide an alternative way to access tax reliefs for investors who have used up their pension or ISA allowance. In addition, VCTs can also diversify an investment portfolio, as they tend to be uncorrelated to main market investments. Alternative investments (in this case private equity) have a low correlation with portfolios of traditional investments as a whole, such as liquid equity and fixed income exposures.

Consequently, VCTs continue to prove popular. According to the Association of Investment Companies (“AIC”), more than £1 billion was invested into VCTs in both the 2021/2022 and 2022/2023 tax years, which represents the highest years of fundraising ever by VCTs. Funding of VCTs in the tax year 2024/2025 was the third highest on record with a figure of £894 million, an uplift from the 2023/2024 tax year, demonstrating the VCT market continues to see increased investor confidence. The income tax relief available on an investment made in the 2025/2026 tax year is up to 30% of up to a maximum of £200,000 invested per individual per tax year. The shares in the VCT need to be held for a minimum of five years to maintain

this initial tax relief. It was announced in the Autumn Budget 2025 on 26 November 2025 that the rate of income tax relief available on new VCT subscriptions will reduce from 30% to 20% for investments made on or after 6 April 2026.

A summary of the tax reliefs for UK taxpayers who invest into a VCT:

- Income tax relief of up to 30% of the amount invested for subscriptions up until 5 April 2026 and 20% income tax relief for subscriptions on or after 6 April 2026, up to £200,000 per tax year.
- Dividends received by investors from the VCT are tax-free.
- Capital gains made upon the disposal of the shares are tax-free.

Consequently, the effective net cost of an Ordinary Share (which is being offered at an illustrative Offer Price based on the applicable NAV per Ordinary Share for allotment of 93.21p per Share before any Initial Fee is applied), is only 65.25p per Share for a subscription in the Company prior to 6 April 2026.

### An illustration of effect of tax relief to Qualifying Investors

The table below has been prepared for illustrative purposes only and does not form part of the summary of the tax reliefs contained in this section. The table shows how the initial tax reliefs available can reduce the effective cost of an investment of £10,000 in a VCT prior to 6 April 2026 by a Qualifying Investor subscribing for VCT shares to only £7,000.

|                                                                                                                  | Effective Cost | Tax Relief |
|------------------------------------------------------------------------------------------------------------------|----------------|------------|
| Investors unable to claim any tax reliefs                                                                        | £10,000        | Nil        |
| Qualifying Investor (higher-rate taxpayer) able to claim full 30% income tax relief (for the 2025/2026 tax year) | £7,000         | £3,000     |

The combined effect of the initial income tax relief, tax-free dividends and tax-free capital growth can substantially improve the net returns of an investor in a VCT.

Please note, however, that VCT tax reliefs can be subject to change and are dependent on an individual's circumstances.

In addition to the tax incentives that VCTs deliver to compensate investors for the higher level of risk that unlisted, early-stage portfolio companies may present, other potential benefits of investing in a VCT include

growth potential and diversification. As VCTs invest in smaller Qualifying Companies that are not listed on the main market of the London Stock Exchange, by their very nature, smaller companies have the potential to grow much faster than their larger, listed counterparts. VCTs can also provide a valuable source of portfolio diversification, as their unlisted status delivers a useful contrast with more mainstream listed investments such as stocks and shares.

### Income

The Company intends to pay dividends funded by realised exits as the portfolio matures, and over time it seeks to achieve an average dividend payment of 5p per Share per annum, although amounts in any specific year may vary materially. Income received from the Company's investment portfolio should increase during the life of the Company, as the companies invested into mature to profitability and pay dividends, or are part funded by interest-bearing loan notes.

The Company's ability to pay dividends is not guaranteed and no projection or forecast is expressed or should be inferred from or implied by this statement. The Company's ability to pay dividends is subject to adequate distributable reserves, legislative requirements and the available cash reserves of the Company. It should also be noted that, subject to the reserves of the Company, the Company is required to distribute at least 85% of its income to its Shareholders in order to comply with the legislation applicable to VCTs. Paying out an annual dividend may erode the capital value of the Company.

The Company has implemented a Dividend Reinvestment Scheme, which allows Shareholders to elect to have dividends paid to them in the form of new Shares issued by the Company. Further details of the Dividend Reinvestment Scheme are set out in Part 8.

# Investment objectives and policies

## Investment objectives

The Company's target is to produce attractive investment returns from a portfolio of unquoted UK companies (as well as, potentially, companies quoted on the AIM market of the London Stock Exchange, or on AQSE Trading or the AQSE Growth Market of the Aquis Stock Exchange).

The Company's principal objectives are to:

1. Maximise tax-free returns for Investors, on a risk-adjusted basis, from a combination of valuation gain, the distribution of realised gains following exits and dividends (funded through dividends from and interest received on underlying investments).
2. Support the growth of UK SMEs.
3. Maintain VCT status to enable Investors to benefit from up to 30% income tax relief for subscriptions up until 5 April 2026 and 20% income tax relief for subscriptions on or after 6 April 2026 on investments as well as tax-free income and capital gains.

## Investment policy

In line with the legislative framework governing the Company, the Company's investment policy is designed to comply with VCT legislation, which is key to the proposition being offered to Investors. The Company seeks to make investments in unquoted companies, each with a strong management team, a proposition that is commercially validated through sales volume, a clear and comprehensive plan for growth, and each of which operates in a well-defined market niche.

The Company seeks to build up a diversified portfolio of such investments, which should allow the Company to capture significant upside from individual positions, but also provide resilience in the event of an economic downturn. Given current global macroeconomic uncertainties, the Directors believe this is attractive positioning from a risk-adjusted-return perspective. The Company currently has 24 investments spread across seven industry sectors.

Unquoted investments are likely to be in the form of ordinary shares, but may use other instruments including, but not limited to, loan stock and convertible securities. The Company may also invest in stocks that are quoted on the AIM market of the London Stock Exchange, or on AQSE Trading or the AQSE Growth Market of the Aquis Stock Exchange; such stocks may include ordinary shares, and/or loan stock (which

must be unsecured). As well as quoted securities, the Company may hold permitted investments for liquidity management purposes, including interest-bearing money market open-ended investment companies (undertakings for the collective investment in transferable securities) in addition to cash on short-term deposit.

## Qualifying Investments

Qualifying Investments comprise investments in companies that are carrying out a qualifying trade (as defined under the relevant VCT legislation), meet a financial health requirement and have a permanent establishment in the UK, although some may trade overseas. The Qualifying Companies in which investments are made must have no more than £15 million of gross assets immediately prior to the investment and £16 million immediately after the investment (£30 million immediately prior to investment and £35 million immediately after the investment for investments taking place after 6 April 2026), fewer than 250 employees (or 500 employees in the case of a Knowledge Intensive Company) and generally cannot have been trading for more than seven years (or ten years in the case of a Knowledge Intensive Company) at the time of the Company's investment. Several other conditions must be met for an investment to be classed as a VCT Qualifying Investment; further details of these are set out on page 52.

The Company intends to utilise the proceeds of the Offer to build on its existing diverse portfolio of Qualifying Investments. In any event, the Company must ensure that at least 80% by value of the Company's investments are in qualifying holdings by the start of the accounting period in which the third anniversary of the date the Shares were issued falls. At least 70% by value of the Company's qualifying holdings must be in holdings of Eligible Shares by the start of the accounting period in which the third anniversary of the date the Shares were issued falls. At least 30% of all new funds raised by the Company must be invested in Qualifying Investments within 12 months of the end of the accounting period in which the Company issued the Shares.

## Non-Qualifying Investments

Funds not yet employed in Qualifying Investments will be managed with the intention of generating a

return, and ensuring the Company has sufficient liquidity to invest in Qualifying Investments as and when opportunities arise. Subject to the Investment Manager's view from time to time of desirable asset allocation and the rules applicable to VCTs (as set out on page 52), the Non-Qualifying Investment Portfolio will comprise permitted non-qualifying holdings for liquidity management purposes, which includes quoted ordinary shares or securities on a regulated market, collective investment schemes (including UCITs), shares or units in an alternative investment fund, and cash on short-term deposit. Where the Company invests in quoted equities, it may seek to limit its overall market exposure through protective options (or through other hedging strategies).

These Non-Qualifying Investments may also be provided to businesses that have already received, or may in the future receive, investment from other funds or entities advised or managed by companies in the Investment Manager's group of companies.

Subject to the rules applicable to VCTs (as set out on page 52), the Company may invest in the above assets and may also invest through a holding in other funds or companies managed or advised by the Investment Manager or its affiliates. The Company will not be charged management fees by the Investment Manager in relation to its investment in such funds or companies managed or advised by the Investment Manager or its affiliates.

### **Borrowing policy**

The Company has no present intention of utilising gearing as a strategy for improving or enhancing returns. Under the Company's Articles of Association, the borrowings of the Company will not, without the previous sanction of the Company in general meeting, exceed 50% of the aggregate total amount received from time to time on the subscription of Shares in the Company.

Within the Qualifying Investments Portfolio, the Company should typically be able to restrict the investee company's ability to borrow, although it is anticipated that investee companies will have borrowings including overdrafts and may have other forms of third-party finance arrangements such as invoice financing.

### **Risk diversification and maximum exposures**

It is intended that risk will be spread by investing in a number of businesses within different industry sectors using a mixture of securities. The maximum amount invested in any one company (inclusive of any related group company) is limited to 15% of the value of the portfolio in accordance with the VCT legislation at the time of investment. Currently, the Company's portfolio is spread across seven industry sectors.

### **Target asset allocation**

Initially, the majority of funds will be invested in Non-Qualifying Investments. These will be progressively reduced to provide funds for Qualifying Investments in accordance with the VCT Rules requiring at least 80% of the Company's assets to be invested in Qualifying Investments and 30% invested in Qualifying Investments within 12 months from the end of the accounting period in which funds are raised.

### **Changes to the investment policy**

The Company will not make any material changes to its investment policy without Shareholder approval.

### **Profile of typical investor**

A typical Investor for whom the Company is designed is a retail investor and/or sophisticated investor and/or high-net-worth individual, who is a UK tax resident with sufficient income and capital available to be able to commit to an investment for at least five years and who is attracted by the income tax relief available for a VCT investment as well as tax-free capital growth and tax-free income dividends.

The Puma VCTs are designed for UK tax residents aged 18 or over with an investment horizon of five or more years, where they are able to bear a 100% capital loss and with a high risk tolerance.

Investors in Puma VCTs will generally be informed investors with either experience in investing in VCTs and/or a knowledge and understanding of the risks involved. It is recommended that Investors seek advice from a regulated Financial Adviser if they are unsure about the risks associated with investing in VCTs.

The Board is aware of the Investment Manager's obligations to comply with the FCA's new Consumer Duty rules and principles that came into force on 31 July 2023. Firms subject to the Consumer Duty must ensure they are acting to deliver good outcomes and that this is reflected in their strategies, governance, leadership and policies. The Company is not directly affected by the Consumer Duty. However, the Board will receive updates from the Investment Manager as to how it is meeting its obligations under the Consumer Duty.

In addition, the Investment Manager has carried out an assessment of the Company's target market and a "fair value assessment" of the Ordinary Shares, to comply with its responsibilities to deliver good outcomes for retail customers under the Consumer Duty. This assessment is available on the Investment Manager's website at <https://www.pumainvestments.co.uk/landing-pages/consumer-duty/>.

## Post-investment management

Once an investment is made, the Investment Manager will monitor each investment and will expect to meet the management of investee companies on a regular basis to review performance, recommend measures to encourage growth and, finally, work with that management to optimise exit strategy. To aid investee companies' development, a member of the investment team will normally join an investee company's board.

Throughout the course of the investment, the investee company will be assessed by the Investment Manager's Monitoring Committee. The Monitoring Committee comprises individuals from the Investment Manager including the CEO, the team managing the VCT and members of the finance team. External, independent overview will be provided by the Board. The Committee reviews each investee company's performance against agreed key performance indicators and monitors its adherence to any financial covenants. The investee companies will provide monthly management accounts, which are reviewed and scrutinised. If companies do not perform as expected, the Investment Manager will work closely with the management of the relevant investee company and strive to remedy any issues and amend the business strategy. It is possible that an investee company could fail and the investment in that company could be lost. The Investment Manager may also make follow-on investments.

## Co-investment policy

The Company expects to co-invest alongside other Puma Funds, including Puma VCT 13 and Puma Alpha EIS and, in certain circumstances, the recently launched Puma AIM VCT, which have the same (or similar) investment mandate (investing into attractive, growing companies across a range of sectors in the UK), in investments that comply with the Company's investment policy. This should allow the Company to invest in a broader range of transactions and on a larger scale than it might otherwise be able to access on its own, enabling swifter deployment of funds and giving investors access to a wider pool of investments.

Where more than one of the Puma Funds wish to participate in an investment opportunity, allocations will be offered to each party in proportion to their respective funds available for investment, subject to: (i) priority being given to any funds that require such investment in order to maintain their tax status; (ii) the time horizon of the investment opportunity being compatible with the exit strategy of each fund; and/or (iii) the risk/reward of the investment opportunity being compatible with the target return for each fund. In the event of any conflicts between the funds, the

issues will be resolved at the discretion of the independent Directors. The Investment Manager in turn operates robust conflict of interest procedures to manage potential conflicts. A copy of the applicable conflicts of interest policy is available on the following website: [www.pumainvestments.co.uk](http://www.pumainvestments.co.uk).

## Valuation policy

Unquoted investments will be valued at fair value in accordance with the IPEV Guidelines. Investments in AIM and AQSE market traded companies will be valued at the prevailing bid price.

In summary, what this means is that the Investment Manager's finance team will look at trading performance and any market comparable (mergers, acquisitions or other investments) to estimate the fair value of portfolio holdings from time to time. Where comparable market activity is limited, it may use metrics established at the point of the most recent investment in a portfolio company, adjusted for trading performance. Fair value is the amount for which an asset could be exchanged between knowledgeable, willing parties in an arm's length transaction. In assessing fair value of the Company's investments, the Investment Manager uses those finance professionals in its finance team who have suitable fund experience to undertake this task, but whose remuneration has no direct link to the Company's performance and who have no role in the Investment Manager's or Company's investment process. In addition, the independent members of the Board will carefully scrutinise any valuation proposal received from the Investment Manager, having particular regard to the potential for conflict as between the interests of the Investment Manager and the interests of the Company. All of this seeks to ensure that the valuation process is independent, contains adequate controls and mitigates any potential conflict of interests (that may arise insofar as the fees payable to the Investment Manager (and/or other companies/entities in the Investment Manager's wider corporate group) for providing investment management or administrative services are determined by the NAV of the Company, and insofar as the performance incentive fee payable by the Company to the Investment Manager pursuant to the Investment Management Agreement is also determined by the Company's NAV).

The material accuracy of these valuations is assessed by the Company's auditor in its report included in the Company's annual financial statements.

The Investment Manager will be responsible for the initial calculation of the Net Asset Value of the Company in accordance with the policies set out above. The valuations that underlie that Net Asset

Value, and the resulting Net Asset Value, will be reviewed by a senior investment professional with suitable experience and are also reviewed and approved by a further panel of experienced finance professionals, which comprises individuals with appropriate expertise and experience in valuations, and thereafter agreed with the independent directors of the Company and the auditor. In relation to the preparation of the annual financial statements, the auditor also separately consults a specialist small-company valuation firm appointed by the auditor as part of the audit process. The Net Asset Values approved by the Board will be published in the Company's annual report and accounts (and in its interim results (see below) and on other occasions at the Board's discretion). The relevant Net Asset Values will also be announced through a Regulatory Information Service. The Company does not anticipate any circumstances arising under which valuations may be suspended. However, if this were to occur, the suspension would be announced through a Regulatory Information Service.

## Share buyback policy

The Offer Shares are intended to be traded on the London Stock Exchange's main market for listed securities, although it is likely that there will be an illiquid market for such shares. In such circumstances, Shareholders may find it difficult to sell their Shares in the market.

In order to improve liquidity in the Shares, the Company intends to pursue an active buyback policy, pursuant to which the Board will consider requests from Shareholders who have held their Shares for five years or more for the Company to buy back their Shares at a discount of 5% to the latest published Net Asset Value (adjusted for any subsequent dividends for which the record date has passed). Buybacks are subject to applicable regulations, market conditions at the time and the Company having both the necessary funds and distributable cash reserves available for the purpose. The making, timing and frequency of any share buybacks will remain at the absolute discretion of the Board. Therefore, Shareholders should not rely upon any share buyback policy to offer certainty of selling their Shares at prices that reflect the underlying NAV.

As with all VCTs, the Directors expect that there will be limited demand for share buybacks from Shareholders who have been allotted Shares under the Offer within the first five years, because the sellers are likely to be either deceased Shareholders' estates or those Shareholders whose circumstances have changed (to such extent that they are willing to repay the 30% income tax relief (for subscriptions made in the 2025/2026 tax year) or 20% income tax relief (for

subscriptions made in the 2026/2027 tax year) in order to gain access to the net proceeds of the sale). In exceptional circumstances, the Board will (in its absolute discretion) consider requests from Shareholders who have held their Shares for less than five years.

## Shareholder reporting and communications

The Directors believe that communication with Shareholders is important. In addition to regular announcements of the NAV being released to the London Stock Exchange and periodic newsletters, Shareholders will have access to a copy of the Company's annual report and accounts (expected to be published in late spring/early summer) and a copy of the Company's interim results (expected to be published each winter). These will be made available on the Investment Manager's website.

The Investment Manager also issues a biannual newsletter to keep Shareholders abreast of relevant market, sector or lifestyle information and news that it deems to be relevant. These communications will be sent to all Shareholders, who can opt out of receiving such communications at any point by going to the Investment Manager's website [www.pumainvestments.co.uk](http://www.pumainvestments.co.uk) and completing the unsubscribe form.

In order to reduce the administrative burden and cost of communicating with Shareholders, the Company intends to publish all notices, documents and information to be sent to Shareholders generally ("Shareholder Documents") through the Investment Manager's website: [www.pumainvestments.co.uk](http://www.pumainvestments.co.uk).

Increased use of electronic communications will deliver significant savings to the Company in terms of administration, printing and postage costs, as well as speeding up the provision of information to Shareholders. The reduced use of paper will also have general environmental benefits. Shareholders will be notified when Shareholder Documents are published on the Investment Manager's website.

Such notification will be delivered electronically (or by post where no email address has been provided for that purpose) and, unless Investors complete the relevant section of the Application Form to receive hard-copy Shareholder Documents or, as Shareholders, they subsequently notify the Company of the same, Shareholders will not receive hard copies of the Shareholder Documents, but electronic versions instead.

All Qualifying Subscribers will automatically be provided with certificates enabling them to claim income tax relief.

## Allotment, dealings and settlement

Applications will be made to the FCA for the Offer Shares to be issued pursuant to the Offer to be admitted to the Official List, and to the London Stock Exchange for the Ordinary Shares to be admitted to trading on its main market for listed securities.

In relation to the allotment of Offer Shares, successful applicants will be notified by post. Dealings may commence prior to notification.

Dealings in Offer Shares are expected to commence within ten Business Days of their allotment.

Ordinary Shares will be issued in registered form and will be freely transferable in both certificated and uncertificated form and are not redeemable. It is anticipated that definitive share certificates will be issued within ten Business Days of each allotment.

Ordinary Shares will be capable of being transferred by means of the CREST system. Investors who wish to take account of the ability to trade their Ordinary Shares in uncertificated form (and who have access to a CREST account) may arrange through their professional adviser to convert their holdings into dematerialised form.

The Offer may not be withdrawn after dealings in the Ordinary Shares have commenced. In the event of any requirement for the Company to publish a supplementary prospectus, applicants who have yet to be entered into the Company's register of members will be given two days to withdraw from their subscription. Applicants should note, however, that such withdrawal rights are a matter of law that is yet to be tested in the courts of England and Wales and applicants should, therefore, rely on their own legal advice in this regard. In the event that notification of withdrawal is given by post, such notification will be effected at the time the applicant posts such notification rather than at the time of receipt by the Company.

## Corporate governance

The Company has adopted the Association of Investment Companies Code of Corporate Governance (the "AIC Code"), issued by the AIC in August 2024, which addresses the principles and

provisions set out in the UK Corporate Governance Code (the "UK Code") issued by the Financial Reporting Council (the "FRC") in January 2024. The FRC has confirmed that members of the AIC who report against the AIC Code will be meeting their obligations in relation to the UK Code.

Accordingly, the Company will comply with all the provisions of the AIC Code save that, due to the size of the Board: (i) the role of Chairman and Senior Independent Director are both performed by the current Chairman; (ii) there are no executive Directors or senior management, the Company does not have a nominations committee or remuneration committee; and (iii) a formal annual performance evaluation of the Board, its committees and the individual Directors has not been undertaken.

At every Board meeting a review of financial and operational performance, as well as legal and regulatory compliance, is undertaken. The Board also reviews other areas over the course of the financial year including key risks; stakeholder-related matters; diversity and inclusivity; environmental matters; corporate responsibility and governance; compliance and legal matters.

## Market Abuse Regulation

UK MAR sets out requirements relating to insiders, director dealings and market soundings. In particular, directors, PDMRs and Persons Closely Associated with them must notify the Company of any transaction in the Company's shares. There is also a restriction on dealing in the Company's shares during a closed period. UK MAR also stipulates that public disclosure of inside information by the Company must be done without delay (other than in limited circumstances). The FCA must be formally notified of any delay following the announcement of such inside information.

The Directors are aware of their obligations under UK MAR and the Company has a share dealing policy and a procedure to comply with the requirements set out in UK MAR.

# Expenses and administration

---

## Investment management and administration

The Investment Manager is paid an annual investment management fee of 2% (plus VAT if applicable) of the Net Asset Value. The fee is payable quarterly in arrears.

The Investment Manager also provides certain administration and company secretarial services to the Company for an annual fee of 0.35% of the Net Asset Value (plus VAT if applicable), payable quarterly in arrears.

The Directors estimate that, in the 12-month period to 28 February 2026, fees payable to them will not exceed £77,000 in respect of arrangements currently in force.

The Company is responsible for its normal third-party costs including (without limitation) listing fees, audit and taxation services, legal fees, sponsor fees, registrars' fees, receiving agent fees, Directors' fees and other incidental costs. It is expected that the annual running costs of the Company (excluding the Investment Manager's annual investment management fee, any performance incentive fees and transactions expenses) will be approximately 1.17% of the Net Asset Value. The Directors anticipate that the total annual running costs (including the annual investment management fee but excluding any performance incentive fees and transactions expenses) will be approximately 3.17% of the Net Asset Value per annum. In any event, the Investment Manager has agreed to reduce its annual investment management fee by such amount as is equal to the excess by which the Annual Running Expenses of the Company exceed 3.5% of its Net Asset Value.

## Performance incentive fees

As is customary in the VCT industry, investment managers and their management teams are incentivised and rewarded through the payment of performance incentive fees.

Accordingly, the Investment Manager is entitled to a performance incentive fee payable in relation to each accounting period (as determined from the audited annual accounts for that period), subject to the Performance Value per Share being at least 120p at the end of the relevant period. In calculating the Net Asset Value per Share to arrive at the Performance Value per Share, where new Ordinary Shares are issued during a relevant accounting period, or where Ordinary Shares are bought back by the Company during a relevant accounting period, the price for such relevant share issues and/or share buybacks (as applicable) will be deemed to have been at the prevailing Performance Value per Share as at the start of that accounting period. The amount of the performance incentive fee will be equal to 20% of the amount by which the Performance Value per Share at the end of an accounting period exceeds the High Water Mark (being the higher of 120p and the highest Performance Value per Share at the end of any previous accounting period), multiplied by the number of Shares in issue at the end of the relevant period. That amount will be allocated, at the discretion of the Investment Manager, between the Investment Manager itself and the Management Team.

## Fees, charges and pricing of the Offer

### Commission

Commission is permitted to be paid to authorised financial intermediaries under the rules of the FCA in respect of execution-only clients where no advice or personal recommendation has been given. Such authorised financial intermediaries who, acting on behalf of their clients, return valid Application Forms bearing their stamp and FCA number will usually be entitled to an initial commission of 0.6% of the amount payable in respect of the Ordinary Shares allocation for each application. Additionally, provided that such intermediary continues to act for the client and the client continues to be the beneficial owner of the Ordinary Shares, such authorised financial intermediaries will usually be paid an annual trail commission by the Promoter of 0.6% of the Net Asset Value for each such Share for five years. The Investment Manager may, in certain circumstances, agree to pay enhanced commission over and above these terms, but any such enhanced commissions will not be payable by either the Investors or the Company, but by the Promoter.

### Adviser Charge

Commission is generally not permitted to be paid to authorised Financial Advisers who provide a personal recommendation to UK retail clients on investments in VCTs. Instead of commission being paid by the Company, a fee will usually be agreed between the adviser and Investor for the advice and related services ("Adviser Charge"). This fee can be paid directly by the Investor to that adviser or, if it is a one-off fee, the payment of such fee (subject to it being no greater than 5% of the total application amount remitted) may be made by the Company (through its Receiving Agent/Registrar) on behalf of the Investor immediately following the subscription for Offer Shares. The payment of such an Adviser Charge is reflected in the number of Offer Shares received by the Investor through the Allotment Formula. If the payment of the Adviser Charge is to be made by the Receiving Agent/Registrar on behalf of the Investor, then the Investor's Financial Adviser is required to specify the amount of the charge on the Application Form.

### Initial Fee

The expenses charged to Investors by the Company in relation to their application will be the Initial Fee. Puma Investments, as Promoter, will charge the Company an Initial Fee of 3% (plus VAT if applicable) of the monies subscribed for Shares under the Offer in respect of advised and non-advised Investors. In the case of advised Investors, the calculation of such Initial Fees is after the deduction of any amounts used to pay any Adviser Charges. Puma Investments may, in certain circumstances, agree to pay enhanced commission over and above these terms, but any such enhanced commissions will not be payable by either the Investors or the Company. Out of its fees, Puma Investments (not the Investors) will be responsible for initial and trail commission (as described under the paragraph headed Commission above) to intermediaries (where permitted). Income tax relief is available on the total amount subscribed for Shares, subject to VCT Rules, personal circumstances and changes in the availability of tax reliefs. The Directors may, at their discretion, allow an enhanced share allocation for Investors who have invested in other Puma VCTs or for any other Investors at their discretion. The fee structure is based on the relevant applicable rules of the FCA and HMRC as they apply at the date of this document.

In the event that there is a change in these rules that affects this fee structure, the Directors reserve the right to make amendments to the fee structure outlined in this Prospectus.

### Transaction fees

The Investment Manager is entitled to charge the underlying investee companies fees for arrangement and structuring and, to the extent that other services are provided, additional fees may be agreed. For the avoidance of doubt, these fees are not borne by the Company. Subject to FCA inducement and conflict of interest rules, fees may be paid to introducers in respect of the introduction of transactions.

## Number of Shares to be issued and pricing of the Offer

The number of Shares to be issued to each Investor will be calculated using the following Allotment Formula:

**Number of Shares = amount subscribed (being the application amount remitted) less (i) Initial Fee and (ii) Adviser Charge (if any, subject to it being no greater than 5% of the total application amount remitted), divided by the latest published NAV per Ordinary Share as at the date of allotment, adjusted for any subsequent dividends for which the record date has passed, rounded down to the nearest whole number of Shares.**

The Initial Fee is 3% of the investment amount. The Promoter may agree to reduce its Initial Fee in whole or in part in respect of specific Investors or groups of Investors.

The Offer Price applying in respect of an Investor, therefore, varies according to the applicable NAV per Ordinary Share used in the Allotment Formula, the Initial Fee charged and whether any Adviser Charge is to be payable from the monies subscribed into the VCT.

Investors should receive income tax relief on their full subscription amount.

# PART 2 Taxation

The following information is only a summary of the law concerning the tax position of individual Qualifying Subscribers in VCTs. Therefore, potential Investors are recommended to consult a duly authorised Financial Adviser as to the taxation consequences of an investment in the Company. All tax reliefs referred to in this document are UK tax reliefs dependent on companies maintaining their VCT qualifying status. Tax relief may be subject to change and will depend on individual circumstances.

---

## Taxation of a VCT

VCTs are exempt from corporation tax on chargeable gains, with no restriction on the distribution of realised capital gains by a VCT, subject to the requirements of company law and the early capital distribution VCT rule. VCTs will be subject to corporation tax on their income (generally excluding dividends received from UK companies) after deduction of attributable expenses.

## Tax reliefs for individual investors

In order to benefit from the tax reliefs outlined as follows, individuals who subscribe must be aged 18 or over.

## Relief from income tax

Relief from income tax of up to 30% for subscriptions up until 5 April 2026 and 20% income tax relief for subscriptions on or after 6 April 2026 will be available on subscriptions for shares in a VCT, subject to the

Qualifying Limit (currently £200,000 per tax year).

The relief, which will be available in the year of subscription, cannot exceed the amount that reduces the income tax liability of the Qualifying Subscriber in that year to nil. Relief may not be available if there is a loan linked with the investment. Relief will not be available, or, where given, will be withdrawn, either in whole or in part, where there is any disposal (except on death) of the shares (or of an interest in them or right over them) before the end of the period of five years beginning with the date on which the shares were issued to the Qualifying Subscriber.

Relief is restricted or not available where a subscriber disposes of shares in the same VCT within six months of their subscription, whether the disposal occurs before or after the subscription.

Income tax relief is available on the total amount subscribed, subject to VCT Rules, personal circumstances and changes in the availability of tax reliefs.

## Dividend relief

Any Qualifying Subscriber, who has acquired shares in a VCT of a value of no more than £200,000 in any tax year, will not be liable for UK income tax on any dividends paid out on those shares by the VCT. There is no withholding tax on dividends.

## Capital gains tax relief

A disposal by a Qualifying Subscriber of their shares in a VCT will give rise to neither a chargeable gain nor an allowable loss for the purposes of UK capital gains tax. This relief is limited to the disposal of shares acquired within the £200,000 limit for any tax year.

## Loss of tax reliefs

Relief from corporation tax on capital gains will be withdrawn, should a company that has been granted approval or provisional approval as a VCT fail to maintain the conditions required to keep its qualifying status. After such a status is lost, all gains will fail to benefit from tax exemption.

For investors, loss of VCT status could result in:

- clawback of the 30% income tax relief (for subscription in a VCT made in the 2025/2026 tax year) or 20% tax relief (for subscriptions in a VCT made in the 2026/2027 tax year) previously obtained on the subscription for new VCT shares;
- any payments of dividends made by the company during the accounting period in which the company loses VCT status, and thereafter, being subject to income tax; and
- a liability to tax on capital gains as would normally occur on the disposal of shares, except for any part of the gain that could be attributed to the time when the company had VCT status.

Qualifying Investors investing in a company that has provisional approval as a VCT, but fails to obtain full unconditional approval as a VCT, may experience the following consequences:

- clawback of the 30% income tax relief (for subscription in a VCT made in the 2025/2026 tax year) or 20% tax relief (for subscriptions in a VCT made in the 2026/2027 tax year) previously obtained on the subscription for new VCT shares and interest on any overdue tax;
- any payments of dividends by the company being subject to income tax; and
- any gain from the disposal of any shares being subject to capital gains tax and losses on the

shares being allowable losses for capital gains tax purposes.

For the purposes of the following paragraphs, references to shares should be viewed as Eligible Shares.

## Qualification as a VCT

To qualify as a Venture Capital Trust, a company must be approved as such by HMRC. To maintain approval, the conditions summarised below must continue to be satisfied throughout the life of the VCT:

- the company's ordinary share capital is listed on a regulated European market;
- the company holds at least 80% (by value) of its investments in Qualifying Companies;
- at least 70% of the company's Qualifying Investments (by value) is held in Eligible Shares;
- at least 30% of all new funds raised by the company must be invested in Qualifying Investments within 12 months of the end of the accounting period in which the company issued the shares;
- at least 10% of each investment in a Qualifying Company is held in Eligible Shares (broadly by value at time of investment);
- no investment constitutes more than 15% of the company's portfolio (by value at time of investment);
- the company's income for each financial year is derived wholly or mainly from shares and securities;
- the company distributes sufficient revenue dividends to ensure that no more than 15% of the income from shares and securities in any one year is retained;
- no investment can be made in a company which causes that company to receive more than £5 million (increasing to £10 million for investments on or after 6 April 2026) of Risk Finance State Aid investment (including from VCTs) in the 12 months ending on the date of the company's investment (£10 million (increasing to £20 million for investments on or after 6 April 2026) in the case of a Knowledge Intensive Company);
- no payment or distribution is made to any shareholder directly or indirectly from share capital or share premium account until after the third anniversary of the end of the

accounting period in which the shares were issued (other than a buyback of those shares);

- (xi) no investment can be made in a company that causes that company to receive more than £12 million, increasing to £24 million for investments on or after 6 April 2026 (£20 million if the company is deemed to be a Knowledge Intensive Company, increasing to £40 million for investments on or after 6 April 2026) of Risk Finance State Aid investment (including from VCTs) over the company's lifetime;
- (xii) no investment can be made by the company in a company whose first commercial sale was more than seven years (or ten years in the case of a Knowledge Intensive Company) prior to date of investment, except where previous Risk Finance State Aid was received by the company within seven years or where a "turnover test" is satisfied and the company is looking to enter into a new product or geographic market (Knowledge Intensive Companies will be able to choose whether to use the current test of the date of first commercial sale or the point at which turnover reached £200,000, to determine when the ten-year period has begun);
- (xiii) a company which has received investment from the company cannot use such investment to acquire another existing business or trade;
- (xiv) to be Qualifying Investments, investee companies must have objectives to grow and develop over the long term and there must be a significant risk that the investor will lose more capital than they gain as a return (including any tax relief);
- (xv) the investment must be used for the purpose of growth and development of the company; and
- (xvi) the VCT must not make a Non-Qualifying Investment other than those specified in section 274(3A) ITA.

"Qualifying Investments" comprise shares or securities (including loans with a five-year or greater maturity period but excluding guaranteed loans and securities) issued by unquoted trading companies (companies whose shares are traded on AIM or AQSE are treated as unquoted companies for the purposes of calculating qualifying investments), which meet a financial health requirement and which exist wholly or mainly for the purpose of carrying on one or more qualifying trades. The trade

must be carried on by, or be intended to be carried on by, the investee company or a qualifying subsidiary at the time of the issue of the shares or securities to the VCT (and by such company or by any other subsidiary in which the investee company has not less than a 90% interest at all times thereafter). A company intending to carry on a qualifying trade must begin to trade within two years of the issue of shares or securities to the VCT and continue it thereafter. The definition of a qualifying trade excludes dealing in property, shares, securities, commodities or futures. It also excludes banking, insurance, receiving royalties or licence fees in certain circumstances, leasing, the provision of legal and accounting services, farming and market gardening, forestry and timber production, property development, shipbuilding, coal and steel production, operating or managing hotels or guest houses, generation of electricity, power or heat, production of fuel, nursing and residential care homes. The funds raised by the investment must be used for the purposes of the qualifying trade within certain time limits.

A Qualifying Investment can also be made in a company which is a parent company of a trading group where the activities of the group, taken as a whole, consist of carrying on one or more qualifying trades. Investee companies must have a permanent establishment in the UK. The investee company cannot receive more than £5 million, increasing to £10 million for investments on or after 6 April 2026 (£10 million for a Knowledge Intensive Company, increasing to £20 million for investments on or after 6 April 2026) from VCTs or other Risk Finance State Aid investment sources during the 12-month period which ends on the date of the VCT's investment. The investee company's gross assets must not exceed £15 million immediately prior to the investment and £16 million immediately thereafter (increasing to £30 million immediately prior to the investment and £35 million immediately thereafter for investments on or after 6 April 2026). The investee company must have fewer than 250 employees (500 employees in the case of a Knowledge Intensive Company). The investee company must have long-term growth plans and the investment made by the VCT needs to be at risk. Neither the VCT nor any other company may control the investee company. At least 10% of the VCT's total investment in the investee company must be in Eligible Shares, as described above. The company cannot receive more than £12 million, increasing to £24 million for investments on or after 6 April 2026, (£20 million, increasing to £40 million

for investments on or after 6 April 2026, if the company is deemed to be a Knowledge Intensive Company) of Risk Finance State Aid investment (including from VCTs) over the company's lifetime. The company's first commercial sale must be no more than seven years (ten years for a Knowledge Intensive Company) prior to the date of the VCT's investment, except where previous Risk Finance State Aid was received by the company within seven years or where the company is entering a new product market or new geographic market and a turnover test is satisfied. Funds received from an investment by a VCT cannot be used to acquire shares in another company or another existing business or trade.

shares from the original subscriber. Any qualifying purchaser of existing VCT shares, rather than new VCT shares, will not qualify for income tax relief on investments, but may be able to receive exemption from tax on dividends and capital gains tax on disposal of their VCT shares if those shares are acquired within the investor's annual £200,000 limit. The information in this Part 2 is based on existing legislation, including taxation legislation. The tax legislation of the UK and of any other jurisdiction to which an investor is subject may have an impact on the income received from the securities. The tax reliefs described are those currently available. Levels and bases of, and relief from, taxation are subject to change and such change could be retrospective.

## The impact of the death of an investor

### Initial income tax

Should any investor die having made an investment in a VCT, the transfer of shares on their death will not be viewed as a disposal of shares and so there will not be any clawback of the income tax relief obtained on the subscription for those shares. However, the shares transferred will become part of the estate of the deceased for inheritance tax purposes.

### Tax implications for the beneficiary

The beneficiary of any VCT shares inherited from a deceased investor will continue to be entitled to tax-free dividends and tax relief on disposal, but will not be entitled to any initial income tax relief because they have not subscribed for those shares.

### The impact of a transfer of shares between spouses

As it is not deemed a disposal of shares, any transfer of shares between spouses will continue to benefit from all tax reliefs.

## General

Investors who are not resident in the UK or who may become non-resident should seek their own professional advice as to the consequences of making an investment in a VCT, as they may be subject to tax in other jurisdictions as well as in the UK. No stamp duty or stamp duty reserve tax is payable on the issue of shares. The transfer on the sale of shares is usually liable to ad valorem stamp duty or stamp duty reserve tax. Such duties would be payable by the individual who purchases the

knowledge) hold an interest in shares representing 1% or more of any class of the equity share capital of such company or of the voting rights available to members of the company;

- (e) any proposal relating to an arrangement for the benefit of the employees of the Company or any subsidiary undertaking which does not award to any Director as such any privilege or advantage not generally awarded to the employees to whom such arrangement relates; and

Subject as provided below, the Directors may exercise all the powers of the Company to borrow money and to mortgage or charge its undertaking, property and uncalled capital.

The Directors shall restrict the borrowings of the Company and exercise all voting and other rights or powers of control over its subsidiary undertakings (if any) so as to secure that the aggregate amount at any time outstanding in respect of money borrowed by the group, being the Company and its subsidiary undertakings

for the time being (excluding intra-group borrowings), shall not, without the prior sanction of an ordinary resolution of the Company, exceed a sum equal to 50% of the aggregate total amount received from time to time on the subscription of shares of the Company.

### 3.2.13. Uncertificated Shares

CREST, a paperless settlement system enabling securities to be evidenced otherwise than by a certificate and transferred otherwise than by a written instrument, was introduced in July 1996. The Articles are consistent with CREST membership and allow for the holding and transfer of shares in uncertificated form pursuant to the Uncertificated Securities Regulations 2001.

### 3.2.14. General Meetings

The Company shall, within six months of a company's financial year end, at such time and place as may be determined by the Directors, hold a general meeting as its annual general meeting in addition to any other meetings in that year.

The Directors may, whenever they think fit, convene a general meeting of the Company, and general meetings shall also be convened on such requisition or in default may be convened by such requisitions as are provided by the Act. Any meeting convened under this Article by requisitions shall be convened in the same manner as near to as possible as that in which meetings are to be convened by the Directors.

An annual general meeting shall be called by not less than 21 days' notice in writing, and all other general meetings of the Company shall be called by not less than 14 days' notice in writing. The notice shall be exclusive of the day on which it is given and of the day of the meeting and shall specify the place, the day and hour of meeting and, in the case of special business, the general nature of such business. The notice shall be given to the members (other than those who, under the provisions of the Articles or the terms of issue of the shares they hold, are not entitled to receive notice from the Company), to the Directors and to the Auditors. A notice calling an annual general meeting shall specify the meeting as such and the notice convening a meeting to pass a special resolution or an

ordinary resolution, as the case may be, shall specify the intention to propose the resolution as such.

In every notice calling a meeting of the Company or any class of the members of the Company there shall appear with reasonable prominence a statement that a member entitled to attend and vote is entitled to appoint one or more proxies to attend and, on a poll, vote instead of him, and that a proxy need not also be a member.

If within half an hour from the time appointed for the meeting a quorum is not present, the meeting, if convened by or upon the requisition of members, shall be dissolved. In any other case, it shall stand adjourned to such time (being not less than 14 days and not more than 28 days hence) and at such place as the Chairman shall appoint. At any such adjourned meeting the member or members present in person or by proxy and entitled to vote shall have power to decide upon all matters that could properly have been disposed of at the meeting from which the adjournment took place. The Company shall give not less than seven clear days' notice of any meeting adjourned for the want of a quorum and the notice shall state that the member or members present as aforesaid shall form a quorum.

The Chairman may, with the consent of the meeting (and shall, if so directed by the meeting) adjourn any meeting from time to time and from place to place. No business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.

appointed as a non-executive director to the board of HWA Group's subsidiary, HWA Limited ("HWA"), and to the board of HWA's subsidiary, Holloway White Allom Limited ("HWAL"). In each case, Richard Oirschot was appointed as an investor director in connection with his role as a consultant for Privet Capital, a business that invested in turnaround businesses. Privet Capital had purchased HWA Group and was attempting to implement a turnaround plan.

In view of the financial situation the HWA Group found itself in, HWAL was placed into administration on 5 October 2011. On 25 February 2013 notice was given of a move from administration to a creditors' voluntary liquidation. As at 26 April 2019, the date of the last joint liquidators' report relating to HWAL, the remaining amounts owing to the secured creditors were approximately £8.9 million, with approximately £22.9 million owing to unsecured creditors. The 26 April 2019 report noted that there would be insufficient realisations to enable further distributions to either secured or unsecured creditors. HWAL was subsequently dissolved on 11 October 2019, but was then restored to the register of companies on 8 January 2021 pursuant to the application of a creditor to the High Court and renamed 00735317 Limited, and is still undergoing creditors' voluntary liquidation, and Richard Oirschot is still a director of that company as at the date of this document.

HWA was placed into creditors' voluntary liquidation on 5 December 2011. As at 8 March 2013, the date of the last joint liquidators' report relating to HWA, the amounts owing to the secured creditors were approximately £11.5 million, with approximately £8.4 million owing to unsecured creditors. The 8 March 2013 report noted that there would be insufficient realisations to enable any distributions to be made to either secured or unsecured creditors. Richard Oirschot's appointment as a director of HWA terminated on 16 August 2013 when the company was dissolved following the creditors' voluntary liquidation.

HWA Group (renamed Privet H Limited) was placed into creditors' voluntary liquidation on 5 December 2011. As at 8 March 2013, the date of the last joint liquidators' report relating to HWA Group, the amounts owing to the secured creditors were approximately £11.5 million, with approximately £9 million owing to unsecured creditors. The 8 March 2013 report noted that there would be insufficient realisations to enable any distributions to be made to either secured or unsecured creditors. Richard Oirschot's appointment as a director of HWA Group had

terminated on 15 June 2011, prior to the company being placed into creditors' voluntary liquidation.

- 4.12. On 2 July 2004, Michael van Messel was appointed a director of UK Hotels (Finance) plc (a wholly owned subsidiary of UK Group of Hotels plc (formerly Puma Hotels plc)) and resigned on 10 June 2014. The company's principal activity was to provide finance to other group companies, with a financing raised through the issue of bonds which were listed on the Channel Islands Stock Exchange (now The International Stock Exchange). The failure of these group companies led to the demise of the company, which was placed into administration on 11 September 2014. The company also provided security by way of a fixed and floating charge over its assets to secure the borrowings of group companies. The administrator's statement of proposals as at 27 October 2014 referred to an estimated deficiency as regards creditors of the company of approximately £72 million. Subsequently, the company was dissolved on 17 December 2015. Further, the amounts owing to the secured creditors of the group companies were approximately £120 million.
- 4.13. The Company has taken out directors' and officers' liability insurance for the benefit of the Directors.
- 4.14. The estimated aggregate remuneration for the Company, including benefits in kind, to be paid to the Directors in the financial period ending 28 February 2025, based on the arrangements currently in place with each Director, will not exceed £77,000.
- 4.15. The Directors, the Investment Manager and the directors of the Investment Manager do not have any conflicts of interest between their duties to the Company and their private interests or other duties, except for Michael van Messel who is a shareholder of Shore Capital Group Limited (which is the ultimate holding company of the Investment Manager), with the Investment Manager being a party to the agreements referred to in paragraphs 5.1, 5.3, 5.4, 5.6, 5.7 and 5.8. Michael van Messel is consequently interested in these agreements.
- 4.16. There are no restrictions agreed by any Director or member of the Investment Manager on the disposal within a certain time period of their holdings in the Company's securities.
- 4.17. There are no amounts set aside or accrued by the Company to provide pension, retirement or similar benefits to the Directors.

The Committee shall prepare a report each year addressed to the shareholders for inclusion in the Company's annual report and accounts. The duties of the Committee are, inter alia:

4.20. The Company does not have a remuneration committee or a nomination committee.

## 5. Material contracts

The following constitutes a summary of the principal contents of each material contract entered into by the Company, otherwise than in the ordinary course of business, in the two years immediately preceding the date of this document and other contracts, otherwise than in the ordinary course of business, which contain any provision under which the Company has an obligation or entitlement which is material to the Company as at the date of this document. There are no other contracts, not being contracts entered into in the ordinary course of business, entered into by the Company which contain any provision under which the Company has an obligation or entitlement which is material to the Company as at the date of this document:

### 5.1. Investment Management Agreement

An agreement (the "Investment Management Agreement") dated 5 July 2019 (as varied by the deed of amendment and restatement to the Investment Management Agreement dated 15

June 2023) and made between the Company and the Investment Manager whereby the Investment Manager provides discretionary investment management and advisory services to the Company in respect of its portfolio of Qualifying Investments and Non-Qualifying Investments.

The Investment Manager receives an annual investment management fee equal to 2% of the Net Asset Value (plus VAT if applicable) in relation to its investment management services, together with an annual administration fee of 0.35% of the Net Asset Value (plus VAT if applicable) in relation to the administrative and company secretarial services. In both cases such fees are payable quarterly in arrears.

In relation to the financial year ended 28 February 2025, the Company paid fees totalling £595,000 for investment management services and £104,000 for administration services (inclusive of VAT where applicable).

The Investment Manager is also entitled to a performance incentive fee payable in relation to each accounting period, subject to the Performance Value per Share being at least 120p at the end of the relevant accounting period. The amount of the performance incentive fee will be equal to 20% of the amount by which the Performance Value per Share at the end of an accounting period exceeds the High Water Mark (being the higher of 120p and the highest Performance Value per Share at the end of any previous accounting period), and multiplied by the number of Shares in issue at the end of the relevant period.

In calculating the Net Asset Value per Share to arrive at the Performance Value per Share, where new Ordinary Shares are issued during a relevant accounting period, or where Ordinary Shares are bought back by the Company during a relevant accounting period, the price for such relevant share issues and/or share buybacks (as applicable) will be deemed to have been at the prevailing Performance Value per Share as at the start of that accounting period. Additionally, the auditor may, when calculating the performance incentive fee, make any adjustments which it deems are reasonably necessary or desirable so that the resulting performance incentive fee as calculated complies with the "overriding" principle that in relation to the performance incentive fee, the Investment Manager is incentivised purely based on the investment gains within the portfolio in the relevant

accounting period (net of costs).

In relation to the financial year ended 28 February 2025, no performance fee was paid.

The Company is responsible for its central running costs (including Directors' fees, the annual investment management fee and the administration fee), and normal third-party costs including listing fees, audit and taxation services, legal fees, sponsor fees, registrar fees, receiving agent fees and other incidental costs.

The Investment Manager has agreed to reduce its annual investment management fee by such amount as is equal to the excess by which the Annual Running Expenses of the Company exceed 3.5% of its Net Asset Value. The Investment Manager is also entitled to reimbursement of expenses incurred in performing its obligations under the Investment Management Agreement.

The Investment Manager is entitled to charge investee companies arrangement, structuring and monitoring fees, and to the extent that other services are provided, additional fees as may be agreed between the Investment Manager and the relevant investee company. Unless the members of the Board (who are independent of the Investment Manager) agree otherwise:

- (i) in the case of arrangement and structuring fees, the aggregate of such fees and expenses charged to the investee company shall not exceed 3% of the value of the total investment (at the time of investment) by the Company invested in such investee company; and
- (ii) in the case of monitoring fees and expenses, and periodical fees, the aggregate of such fees and expenses (on a per annum basis) charged to the investee company shall, together, not exceed 2.5% of the value of the total amount invested by the Company in such investee company.

The appointment of the Investment Manager took effect on 5 July 2019 and will continue unless terminated by either party giving to the other not less than 12 calendar months' prior notice in writing, such notice not to take effect before the end of the fifth anniversary following the last allotment of Shares pursuant to an offer for subscription made by the Company. The Investment Management Agreement is subject to earlier termination by either party in certain circumstances.

Any investment or other asset of any description of the Company (other than

dematerialised securities which will be registered in the name of such dematerialised custodian as the Company may appoint from time to time), will be held in the Company's name, although in exceptional circumstances another suitable person may hold such investments or assets acting as custodian where, due to the nature of the law or market practice of an overseas jurisdiction, it is in the best interests of the Company to do so or it is not feasible to do otherwise.

When conflicts occur between the Investment Manager and the Company because of other activities and relationships of the Investment Manager, the Investment Manager will ensure that the Company receives fair treatment or will rely on "Chinese Wall" arrangements restricting the flow of information within the Investment Manager's organisation. Alternatively, such conflicts will be disclosed to the Company. To the extent that the Company intends to invest in a company in which another Puma Fund has invested or intends to invest, the investment must be approved by members of the Board who are independent of the Investment Manager unless the investment is made at the same time and/or on the same terms or in accordance with a pre-existing agreement between the Company and the Investment Manager.

The Investment Manager may make investments on behalf of the Company in collective investment vehicles of which it is manager or in companies where the Investment Manager has been involved in the provision of services to those companies and may receive commissions, benefits, charges or advantage from so acting. There will be no duplication of fees in such situations.

The provision by the Investment Manager of discretionary investment management and advisory services is subject to the overall control, direction and supervision of the Directors.

## 5.2. Directors' Letters of Appointment

Each of the Directors entered into an agreement with the Company dated 5 July 2019 whereby each of them is required to devote such time to the affairs of the Company as the Board reasonably requires consistent with their role as non-executive Director. The Chairman is entitled to receive an annual fee of £27,000. The remaining Directors are entitled to receive an annual fee of £25,000 (with effect from 1 October 2024) (plus VAT if applicable). Each party can terminate the agreement by giving to the other at least three months' notice in writing to expire at any time after the date 15 months from

the respective commencement dates.

In relation to the financial year ended 28 February 2025 the Company paid fees totalling £104,000 for these services (inclusive of VAT where applicable).

The appointment of the Investment Manager as administrator took effect on the date on which the minimum subscription was raised under the 2019 Offer (which was on 15 January 2020) and shall continue unless terminated by either party giving to the other not less than 12 calendar months' prior notice in writing, such notice not to take effect before the end of the fifth anniversary following the last allotment of Shares pursuant to an offer for subscription made by the Company. The agreement is subject to early termination in certain circumstances.

### 5.4. Trade Mark Sub-Licence Agreement

An agreement (the "Trade Mark Sub-Licence Agreement") dated 5 July 2019 and made between the Investment Manager and the Company, whereby Puma Investments granted to the Company a non-exclusive licence, at no cost, to use the "Puma" name in connection with the Company's activities.

The Trade Mark Sub-Licence Agreement commenced on the date of the agreement and is terminable by either party if the other party suffers certain events of insolvency and is terminable by the Investment Manager if any person or persons acting in concert (as defined in the City Code on Takeovers and Mergers) obtains control of the Company or if the Investment Management Agreement is terminated for any reason.

### 5.5. Custody Agreement

A Custody Agreement dated 5 July 2019 between the Company and Howard Kennedy LLP under which Howard Kennedy LLP agrees to hold securities in certificated form on behalf of the Company as custodian for an annual fee of £1,000 plus VAT, terminable by either party on one month's notice.

Warranty claims must be made by no later than three months after the second annual general meeting of the Company following the closing date of the 2023 Offer at which Shareholders approve the Company's accounts or (if earlier) by the date the Company is subject to a takeover. The Company also agreed to indemnify the Sponsor and the Promoter. The warranties and indemnities are in usual form for a contract of this type and the warranties are subject to limits of the greater of £1,000,000 or 5% of the proceeds of the Offer for the Promoter, and one year's director fees for each Director. - 6.8. The expenses of, and incidental to, the Offer and Admission of the Offer Shares, including registration and listing fees, printing, advertising and distribution costs, legal and accounting fees and expenses, will be payable by the Company (excluding the costs of any initial and trail commission payable to execution-only brokers which will be the responsibility of the Promoter). If the maximum of £30,000,000 is raised under the Offer (assuming full subscription with full utilisation of the over-allotment facility and an Initial Fee of 3% on all such subscriptions), the net proceeds will amount to approximately £28.9 million.

- 6.10. The Company has given notice to the Registrar of Companies, pursuant to section 833 of the Act, of its intention to carry on business as an investment company, which will enhance its ability to pay dividends out of income. If and when capital profits are realised that the Directors consider it appropriate to distribute by way of dividend (for example on the disposal of a successful investment), the Directors would anticipate revoking this status.
- 6.11. Michael van Messel is a director of certain companies in the Investment Manager's corporate group. Save for the agreements described in paragraphs 5.1, 5.3, 5.4, 5.6, 5.7 and 5.8 of this Part 5 where the Investment Manager is a party to those agreements, there have been no relevant related party transactions since the incorporation of the Company.
- 6.12. Save for the offer agreements detailed in paragraph 5 above, the fees paid to the Directors as detailed in paragraph 5 of this Part 5, the amendments to the Investment Management Agreement detailed in paragraph 5 of this Part 5 and the fees paid under the investment management and administration agreements detailed in paragraph 5 of this Part 5, there were no other relevant related party transactions or fees paid by the Company to a related party during the period from 28 February 2025, the date of its last published audited financial information, to the date of this document.
- 6.13. The Company is of the opinion that the working capital available to the Company is sufficient for its present requirements, that is, for at least the next 12 months following the date of this document. When calculating the working capital available to it, the Company has assessed whether it is able to access cash and other available liquid resources in order to meet its liabilities as they fall due. No account has been taken of the proceeds of the Offer in calculating the working capital available to the Company. When calculating its present requirements, the Company has taken into account the terms of its investment strategy and investment policy.
- 6.14. The capitalisation of the Company as at 31 August 2025 (unaudited) was as follows:

| Shareholders' Equity                      | £'000s |
|-------------------------------------------|--------|
| Called-up share capital                   | 339    |
| Legal reserve (share premium account)     | 20,413 |
| Other reserves (includes revenue reserve) | 10,845 |
| Total                                     | 31,598 |

Save for the issue of, in aggregate, a further 2,102,896 Ordinary Shares pursuant to the 2025 January Offer, there has been no material change in the capitalisation of the Company since 31 August 2025 to the date of this document.

- 6.15. As at the date of this Prospectus, the Company did not have loan capital outstanding, any other borrowings or guaranteed, unguaranteed, secured and unsecured indebtedness, including indirect and contingent indebtedness. The Company has power to borrow under its respective Articles of Association, details of which are set out under the heading "Borrowing Powers" at paragraph 3.2.12 above.
- 6.16. The Company does not assume responsibility for the withholding of tax at source.
- 6.17. The terms upon which the securities are to be held are summarised in paragraph 5.5 of this Part 5.
- 6.18. The Company has to satisfy a number of tests to qualify as a VCT and will be subject to various rules and regulations in order to continue to qualify as a VCT, as set out under the heading "Taxation" in Part 2 of this document. In addition, the following restrictions are imposed upon the Company under the UK Listing Rules:
- 6.18.1. it and its subsidiary undertakings must not conduct any trading activity which is significant in the context of its group (if any) as a whole;
- 6.18.2. no more than 10%, in aggregate, of the value of its total assets may be invested in other listed closed-ended investment funds except listed closed-ended investment funds which themselves have published investment policies to invest no more than 15% of their total assets in other closed-ended investment funds; and
- 6.18.3. it must invest and manage its assets in a way that is consistent with its object of spreading investment risk and in accordance with its investment policy (set out on page 37 of this Prospectus) which contains information about asset allocation, risk diversification and gearing and which includes maximum exposures.
- 6.19. Puma Investments has given, and has not withdrawn, its written consent to the issue of this document with the inclusion of its name in this document and the information in those sections in Part 1 of this document under the headings: "The Investment Manager – a 29-year investment management track record", "Deal flow", "Puma Growth Partners' ESG perspective", "Examples of investments made by Puma VCTs and EIS funds to date" and "A disposal from the Company's portfolio", for which it is stated to accept responsibility, in each case in the form and context in which they are included. The Investment Manager has authorised the inclusion of such information, and accepts responsibility for that information, and declares that, to the best of the knowledge of the Investment Manager, such information is in accordance with the facts and makes no omission likely to affect its import. The full name and address of the Investment Manager are set out on page 21.
- 6.20. The Offer has been sponsored by Howard Kennedy, whose offices are at No. 1 London Bridge, London SE1 9BG, and which is authorised and regulated by the Financial Conduct Authority. The Sponsor has given, and has not withdrawn, its written consent to the issue of this document with the inclusion of its name in the form and context in which it is included.
- 6.21. The Offer is being promoted by Puma Investment Management Limited, which is authorised and regulated by the Financial Conduct Authority. The Promoter has given, and has not withdrawn, its written consent to the issue of this document with the inclusion of its name in the form and context in which it is included.
- 6.22. Shareholders will be informed, through a regulatory information service announcement, if the investment restrictions which apply to the Company as a VCT detailed in this document are breached.
- 6.23. The results of the Offer will be announced through a regulatory information service within three Business Days of the closing of the Offer.
- 6.24. **Mandatory takeover bids:** The City Code on Takeovers and Mergers (the "City Code") applies to all takeover and merger transactions in relation to the Company and operates principally to ensure that shareholders are treated fairly and are not denied an opportunity to decide on the merits of a takeover and that shareholders of the same class are afforded equivalent treatment. The City Code provides an orderly framework within which takeovers are conducted and the Panel on Takeovers and

Mergers (the “Panel”) has now been placed on a statutory footing.

- 6.25. The City Code is based upon a number of General Principles, which are essentially statements of standards of commercial behaviour. General Principle One states that all holders of securities of an offeree company of the same class must be afforded equivalent treatment, and if a person acquires control of a company the other holders of securities must be protected. This is reinforced by Rule 9 of the City Code, which requires a person, together with persons acting in concert with him, who acquires shares carrying voting rights which amount to 30% or more of the voting rights, to make a general offer. “Voting rights” for these purposes means all the voting rights attributable to the share capital of a company which are currently exercisable at a general meeting. A general offer will also be required where a person, who, together with persons acting in concert with him, holds not less than 30% but not more than 50% of the voting rights, acquires additional shares which increase his percentage of the voting rights. Unless the Panel consents, the offer must be made to all other shareholders, be in cash (or have a cash alternative) and cannot be conditional on anything other than the securing of acceptances which will result in the offeror and persons acting in concert with him holding shares carrying more than 50% of the voting rights.
- 6.26. There are not in existence any current mandatory takeover bids in relation to the Company.
- 6.27. **Squeeze-out:** Section 979 of the Act provides that if, within certain time limits, an offer is made for the share capital of a company, the offeror is entitled to acquire compulsorily any remaining shares if it has, by virtue of acceptances of the offer, acquired or unconditionally contracted to acquire not less than 90% in value of the shares to which the offer relates and in a case where the shares to which the offer relates are voting shares, not less than 90% of the voting rights carried by those shares. The offeror would effect the compulsory acquisition by sending a notice to outstanding shareholders telling them that it will compulsorily acquire their shares and then, six weeks from the date of the notice, pay the consideration for the shares to the relevant company to hold on trust for the outstanding shareholders. The consideration offered to shareholders whose shares are compulsorily acquired under the Act must, in general, be the same as the consideration available under the takeover offer.
- 6.28. **Sell-out:** Section 983 of the Act permits a minority shareholder to require an offeror to acquire its shares if the offeror has acquired or contracted to acquire shares in a company that amount to not less than 90% in value of all the voting shares in the company and carry not less than 90% of the voting rights. Certain time limits apply to this entitlement. If a shareholder exercises its rights under these provisions, the offeror is bound to acquire those shares on the terms of the offer or on such other terms as may be agreed.
- 6.29. As at 31 August 2025, the date to which the most recent unaudited financial information on the Company has been drawn up, the unaudited NAV per Ordinary Share was 93.21p. The Shares will usually trade at a discount to the underlying Net Asset Value per Share. Shares in VCTs are inherently illiquid and there may be a limited market in the Ordinary Shares primarily because the initial tax relief is available only to those subscribing for newly issued Ordinary Shares which may, therefore, adversely affect the market price of the Ordinary Shares and the ability to sell them.
- 6.30. The existing issued Ordinary Shares will represent 53.56% of the enlarged Ordinary Share capital of the Company immediately following the Offer, assuming (i) the Offer is fully subscribed, including the over-allotment facility, (ii) with an Offer Price based on the applicable NAV per Ordinary Share for allotment of 93.21p, (iii) an Initial Fee of 3% applies to all subscriptions, and (iv) no adviser fees are payable, and on that basis Shareholders who do not subscribe under the Offer will, therefore, be diluted by 46.44%.
- 6.31. The Company and the Directors consent to the use of the Prospectus by financial intermediaries, from the date of the Prospectus until the close of the Offer, for the purpose of subsequent resale or final placement of securities by financial intermediaries for Shares until the close of the Offer and accept responsibility for the information contained therein for such purpose. The Offer is expected to initially close on or before 26 November 2026, unless previously extended by the Directors to a date no later than 1 December 2026. There are no conditions attaching to this consent. Financial intermediaries may use the Prospectus only in the UK.

6.32. In the event of an offer being made by a financial intermediary, information on the terms and conditions of the Offer will be given to Investors by the financial intermediaries at the time that the Offer is introduced to Investors. Any financial intermediary using the Prospectus must state on its website that it is using the Prospectus in accordance with the consent set out in paragraph 6.31 above.

6.33. The maximum number of Ordinary Shares which are the subject of this Prospectus is 40,000,000 Ordinary Shares.

6.34. The Prospectus has been approved by the Financial Conduct Authority, as competent authority under the UK Prospectus Regulation. The FCA only approves the Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the UK Prospectus Regulation. Such approval shall not be considered as an endorsement of the Company that is, or the quality of the securities that are, the subject of this Prospectus. Investors should make their own assessment as to the suitability of investing in the Ordinary Shares. The Prospectus has been drawn up as part of a simplified prospectus in accordance with article 14 of the UK Prospectus Regulation.

6.35. To the extent information contained in this document has been sourced from a third party, this information has been accurately reproduced and, as far as the Directors and the Company are aware and are able to ascertain from information published by that third party, no facts have been omitted which may render the reproduced information inaccurate or misleading. Where such information has been included in this document, the source of that information has been identified.

6.36. The Company is an alternative investment fund for the purposes of AIFMD and has appointed the Investment Manager as its registered AIFM. The Company is not otherwise regulated.

6.37. The Investment Manager, as the AIFM, holds professional indemnity insurance to address professional liability risks.

6.38. The Investment Manager, as the AIFM, has a conflicts of interest policy that sets out the arrangements it has in place to ensure the fair treatment of investors. In summary, potential conflicts of interest are identified and mitigating strategies are deployed within an overarching internal governance framework. Where necessary conflicts are disclosed to investors.

6.39. No conflict of interest is material to the Offer.

# Terms and conditions of the Offer and application

1. In these terms and conditions and the Application Form, the expression “Prospectus” means the prospectus for Puma Alpha VCT plc dated 9 December 2025. The expression “Application Form” means an application made online or the application form for use in accordance with these terms and conditions and posting it (or delivering it by hand during normal business hours) to Neville Registrars, Neville House, Steelpark Road, Halesowen B62 8HD, or as otherwise indicated in this document, online or on the Application Form. Applicants are encouraged to use the digital method of application and payment, wherever possible, for security, efficiency and environmental reasons.
2. The Company and the Directors reserve the right to reject any application or to accept any application or to accept any application in part only. Multiple applications are permitted. If any application is not accepted, or if any contract created by acceptance does not become unconditional, or if any application is accepted for less money than the subscription amount tendered, or if in any other circumstances there is an excess paid on application, the application monies or the balance of the amount paid or the excess paid on application will be returned without interest, by post, at the risk of the applicant. In the meantime, application monies will be retained in the Company’s bank account.
3. You may pay for your application for Ordinary Shares by debit card, direct bank transfer (BACS/CHAPS) or cheque, provided that an Application Form is submitted at the same time. In all cases funds must be drawn on an account held in the name of the Investor.
4. The contract created by the acceptance of applications in respect of allotment of Shares under the Offer will be conditional on the Admission of the Shares allotted in the Company pursuant to the Offer to the Official List (save as otherwise resolved by the Board). The Offer is not underwritten.
5. By completing an Application Form online or delivering a paper Application Form, you:
  - 5.1. offer to subscribe the amount specified on your Application Form for Shares at the Offer Price (subject to paragraph 14 below) and in accordance with the Prospectus, these terms and conditions and the Articles of the Company;
  - 5.2. (if your subscription is accepted) will be allocated the relevant number of Ordinary Shares as determined by the Allotment Formula;
  - 5.3. authorise your Financial Adviser, or whoever they may direct, to instruct the Receiving Agent/Registrar of the Company to send a document of title for, or credit your account in respect of, the number of Ordinary Shares for which your application is accepted and/or send a cheque for any monies returnable, by post, at your risk, to your address as set out on your Application Form;
  - 5.4. agree that your application may not be revoked and that this paragraph constitutes a collateral contract between you and the Company which will become binding upon completion online or upon despatch by post or delivery of your duly completed Application Form to the Company or to your Financial Adviser;
  - 5.5. warrant that your remittance will be honoured on first presentation and agree that if it is not so honoured, you will not be entitled to receive share certificates in respect of the Ordinary Shares applied for until you make payment in cleared funds for such Ordinary Shares and

such payment is accepted by the Company in its absolute discretion (which acceptance shall be on the basis that you indemnify it, the Sponsor and the Receiving Agent/Registrar against all costs, damages, losses, expenses and liabilities arising out of or in connection with the failure of your remittance to be honoured on first presentation) and you agree that, at any time prior to the unconditional acceptance by the Company of such late payment, the Company may (without prejudice to its other rights) avoid the agreement to subscribe such Ordinary Shares and may issue or allot such Ordinary Shares to some other person, in which case you will not be entitled to any payment in respect of such Ordinary Shares, other than the refund to you, at your risk, of the proceeds (if any) of the payment accompanying your application, without interest;

- 5.6. agree that all payments may be presented for payment on the due dates and any definitive document of title and any monies returnable to you may be retained pending clearance of your remittance and the verification of identity required by the ML Regulations and that such monies will not bear interest;
- 5.7. agree that if, following the issue of all or any Ordinary Shares applied for pursuant to the Offer, your remittance is not honoured on first presentation or you have failed to provide satisfactory evidence of your identity or your application is otherwise deemed invalid, those Ordinary Shares may, forthwith upon payment by the Company (or any person it shall nominate) of the offer price of the Ordinary Shares to the Company, be transferred to the Company (or any person it shall nominate) at the relevant offer price per Ordinary Share and any Director of the Company is hereby irrevocably appointed and instructed to complete and execute all or any form(s) of transfer and/or any other documents in relation to the transfer of Ordinary Shares to the Company (or any person it shall nominate) or such other person as the Company may direct and to do all such other acts and things as may be necessary or expedient, for the purpose of or in connection with, transferring title to the Ordinary Shares to the Company, or such other person, in which case you will not be entitled to any payment in respect of such Ordinary Shares;
- 5.8. undertake to provide satisfactory evidence of identity within such reasonable time (in each case to be determined in the absolute discretion of the Company and the Sponsor) to ensure compliance with the ML Regulations;

- 5.9. agree that, in respect of those Ordinary Shares for which your application has been received and is not rejected, your application may be accepted at the election of the Company either by notification to the London Stock Exchange of the basis of allocation or by notification of acceptance thereof to the Receiving Agent/Registrar;
- 5.10. agree that all documents in connection with the Offer and any returned monies will be sent at your risk and will be sent to you at the address supplied in the Application Form;
- 5.11. agree that, having had the opportunity to read the Prospectus and Application Form, you shall be deemed to have had notice of all the information and representations (including the risk factors and these terms and conditions) contained therein, and agree to be bound by them;
- 5.12. confirm that (save for advice received from your Financial Adviser) in making such an application you are not relying on any information and representation other than those contained in the Prospectus and you accordingly agree that no person responsible solely or jointly for the Prospectus or any part thereof or involved in the preparation thereof will have any liability for any such other information or representation;
- 5.13. agree that all applications, acceptances of applications and contracts resulting therefrom under the Offer shall be governed by and construed in accordance with English law, that you submit to the jurisdiction of the courts of England and Wales and agree that nothing shall limit the right of the Company or the Sponsor to bring any action, suit or proceedings arising out of or in connection with any such applications, acceptances of applications and contracts in any other manner permitted by law or any court of competent jurisdiction;
- 5.14. irrevocably authorise the Receiving Agent/Registrar and/or the Sponsor or any person authorised by either of them, as your agent, to do all things necessary to effect registration of any Ordinary Shares subscribed for by or issued to you into your name and authorise any representative of the Receiving Agent/Registrar or of the Sponsor to execute any documents required therefor and to enter your name on the register of members of the Company;
- 5.15. agree to provide the Company with any information which it may request in connection with your application or to comply

with the laws relating to VCTs or other relevant legislation (as the same may be amended from time to time) including without limitation satisfactory evidence of identity to ensure compliance with the ML Regulations;

- 5.16. warrant that, in connection with your application, you have observed the laws of all requisite territories, obtained any requisite governmental or other consents, complied with all requisite formalities and paid any issue, transfer or other taxes due in connection with your application in any territory and that you have not taken any action which will or may result in the Registrar and/or the Sponsor acting in breach of the regulatory or legal requirements of any territory in connection with the Offer as a result of your application;
- 5.17. confirm that you have read and complied with paragraph 6 below and warrant that neither of the Receiving Agent/Registrar and/or the Sponsor will infringe any laws of any such territory or jurisdiction directly or indirectly as a result of, or in consequence of any acceptance of, your application;

- 5.19. warrant that you are not under the age of 18 years;
- 5.20. agree that the Receiving Agent/Registrar and/or the Sponsor are each acting for the Company in connection with the Offer and for no-one else and that they will not treat you as their customer by virtue of such application being accepted or owe you any duties or responsibilities concerning the price of Ordinary Shares or concerning the suitability of Ordinary Shares for you or be responsible to you for any protections as a customer;
- 5.21. warrant that, if you complete the online Application Form or sign the Application Form on behalf of somebody else or yourself and another or others jointly or a corporation, you have the requisite power to make such investments as well as the authority to do so and such person or corporation will also be bound accordingly and will be deemed also to have given the confirmations, warranties and undertakings contained in these terms and conditions and undertake (save in the case of signature by an authorised Financial Adviser on behalf of the Investor) to enclose a power of attorney or a copy thereof duly certified by a solicitor with the Application Form;
- 5.22. warrant that you are not subscribing for the Ordinary Shares using a loan that would not have been given to you or any associate or not

have been given to you on such favourable terms, if you had not been proposing to subscribe for the Ordinary Shares;

- 5.23. warrant that the Shares are being acquired for bona fide commercial purposes and not as part of a scheme or arrangement the main purpose of which, or one of the main purposes of which, is the avoidance of tax. Obtaining tax reliefs given under the applicable VCT legislation is not itself tax avoidance;
- 5.24. warrant that you are not a "US Person" as defined in the United States Securities Act of 1933 (as amended) ("Securities Act"), or a resident of Canada and that you are not applying for any Shares on behalf of or with a view to their offer, sale or delivery, directly or indirectly, to or for the benefit of any US Person or a resident of Canada;
- 5.25. warrant that you will be the beneficial owner of the Shares in Puma Alpha VCT plc issued to you under the Offer;

- 5.28. agree that, if you request that Ordinary Shares are issued to you on a specific date and such Ordinary Shares are not issued on such date, the Company and its agents and directors will have no liability to you arising from the issue of such Ordinary Shares on a different date; and
- 5.29. warrant that you are not currently targeted by any form of UK, US or EU sanctions or restrictive measures including: blocking; asset freezes; restrictions on dealings, issuing, or trading in debt, equity, derivatives, or other securities; or any other prohibition or restriction on exercising any rights or performing any obligations you may have in connection with any third party and that you will inform the Company and Receiving Agent/Registrar immediately of any circumstances or changes while you are an applicant or a Shareholder that could impact this warranty.
6. No person receiving a copy of this document or an Application Form in any territory other than

the UK may treat the same as constituting an invitation or offer to them, nor should they in any event use such Application Form unless, in the relevant territory, such an invitation or offer could lawfully be made to them or such Application Form could lawfully be used without contravention of any regulations or other legal requirements. It is the responsibility of any person outside the United Kingdom wishing to make an application to satisfy themselves as to full observance of the laws of any relevant territory in connection therewith, including obtaining any requisite governmental or other consents, observing any other formalities requiring to be observed in such territory and paying any issue, transfer or other taxes required to be paid in such territory.

7. The Ordinary Shares have not been and will not be registered under the Securities Act, or under the securities laws of any state or other political subdivision of the United States and may not be offered or sold in the United States of America, its territories or possessions or other areas subject to its jurisdiction ("the USA"). In addition, the Company has not been and will not be registered under the United States Investment Company Act of 1940, as amended. The Investment Manager will not be registered under the United States Investment Advisers Act of 1940, as amended. No application will be accepted if it bears an address in the USA.
8. The rights and remedies of the Receiving Agent/Registrar, the Sponsor and the Company under these terms and conditions and the Application Form are in addition to any rights and remedies that would otherwise be available to any of them, and the exercise or partial exercise of one will not prevent the exercise of the others.
9. The dates and times referred to in these terms and conditions and the Application Form may be altered by the Company with the agreement of the Sponsor.
10. The Board currently envisages allotments to be undertaken in accordance with the expected allotment timetable as set out on page 26 of the Prospectus. Allotment of Offer Shares may, however, be made more frequently at the discretion of the Board. The Board reserves the right to accept Applications and allot and arrange for the listing of Offer Shares as it sees fit. Allotments of Offer Shares will also be subject to the Company having the requisite authorities from its Shareholders from time to time. The Offer shall be suspended if the issue of such Offer Shares would result in the breach of the Prospectus Regulation Rules and/or the

UK Listing Rules or any other statutory provision or regulation applicable to the Company. The Board in its absolute discretion may decide to close or suspend the Offer at any time.

11. Where a fee is payable by an Investor for the advice and related charges they have received from a Financial Adviser who has provided a personal recommendation to invest in the Company, either this "Adviser Charge" (the amount agreed between the Investor and the Financial Adviser) can be paid directly by the Investor or, if it is a one-off fee, its payment may be made by the Company (through the Receiving Agent/Registrar) on behalf of the Investor.
12. Investors are required:
  - (i) to identify such part of the overall cost of financial advice from their Financial Adviser which is related to their decision to subscribe for Shares (plus VAT if relevant); and
  - (ii) to authorise their Financial Adviser to disclose such amount to the Company or the Promoter.
13. Where commission is permitted to be paid to Financial Advisers under the rules of the FCA (for example, in respect of execution-only clients where no advice or personal recommendation has been provided), Financial Advisers who, acting on behalf of their clients, return valid Application Forms bearing their stamp and Financial Conduct Authority registration number may be entitled to commission from the Promoter, calculated by reference to the amount payable in respect of the Ordinary Shares allocation for each such Application Form.
14. Intermediaries or authorised Financial Advisers may agree to waive part or all of their initial commission or Adviser Charge in respect of an application. If this is the case, then such an application may be treated as an application to apply for the amount stated in section 3 of the Application Form, together with an additional amount equivalent to the commission or Adviser Charge waived or subscribed on an Investor's behalf for extra Ordinary Shares. Any waived commission will be applied in subscription for such extra Ordinary Shares at an issue price reflecting the fact that no additional Initial Fee will be applied in determining the number of additional Shares to be issued. The Company is authorised to amend the amount stated in section 3 of the Application Form to include any additional amount from commission waived or any

waived Adviser Charge so subscribed. Financial Advisers and intermediaries should keep a record of Application Forms submitted bearing their stamp to substantiate any claim for their commission.

15. The arrangements described in paragraphs 11 to 14 above are based on the relevant applicable rules of the FCA as they apply at the date of this document. In the event that there is a change in these rules that affects the way advisers are permitted to charge Investors and the arrangements described in paragraphs 11 to 14 above, the Directors reserve the right to make amendments to those arrangements.
16. Investors should be aware of the following requirements in respect of the ML Regulations:
  - (i) If required by the Investment Manager or the Receiving Agent, please supply one of each of the following:
    - an original certified copy of your passport or driving licence certified by a bank or solicitor stating that it is a “true copy of the original and a true likeness of [name]”; and

# Terms and conditions of the Dividend Reinvestment Scheme

1. Elections to participate in the dividend reinvestment scheme of Puma Alpha VCT plc (the "Company") (the "Scheme") should be addressed to Neville Registrars Limited (the "Scheme Administrator") in accordance with condition 11 and will only be effective for dividends to be paid 15 days following receipt of the election by the Scheme Administrator.
2.
  - a. The Company, acting through the Scheme Administrator, shall have absolute discretion to accept or reject elections. An applicant shall become a member of the Scheme upon acceptance of his or her election by the Scheme Administrator on the Company's behalf ("Participants"). The Scheme Administrator will provide written notification if an election is rejected. Only registered shareholders of the Company ("Shareholders") may join the Scheme.
  - b. The Company shall apply dividends to be paid to Participants on ordinary shares of £0.01 each in the Company ("Ordinary Shares") in respect of which an election has been made in the allotment of further Ordinary Shares. The Scheme Administrator shall not have the discretion, and Participants may not instruct the Scheme Administrator, to apply those dividends ("funds") towards any investments other than investment in Ordinary Shares as set out in this condition 2(b).
  - c. Participants who are Shareholders may only participate in the Scheme if all Ordinary Shares registered in their name are mandated to the Scheme.
  - d. By joining the Scheme, Participants instruct the Scheme Administrator that the mandate will apply to the full number of Ordinary Shares held by them in respect of which the election is made, as entered onto the share register of the Company from time to time.
  - e. In relation to new Ordinary Shares to be allotted in relation to a dividend such Shares will only be allotted to the registered Shareholder and not any beneficial holder. Nominee Participants shall not be entitled to instruct the Scheme Administrator to allot Ordinary Shares to a beneficial holder (and Participants are advised to read condition 15 in respect of the consequences for VCT Tax reliefs).
3.
  - a. On or as soon as practicable after a day on which a dividend on the Ordinary Shares is due to be paid to a Participant (the "Payment Date"), the Participant's funds held by the Company shall, subject to conditions 9, 10 and 19 below and the Company having the requisite shareholder authorities to allot Ordinary Shares, be applied on behalf of that Participant to subscribe for the maximum number of whole new Ordinary Shares which can be allotted with the funds.
  - b. The number of Ordinary Shares to be allotted to a Participant pursuant to condition 3(a) above shall be calculated by dividing the Participant's funds by the greater of (i) the net asset value per Ordinary Share being the most recently announced net asset value per Ordinary Share as at the date the dividend is paid (as adjusted for the relevant dividend in question if this has not already been recognised in the most recently announced net asset value) or (ii) to the nominal value of an Ordinary Share.
  - c. No fractions of Ordinary Shares will be issued under the Scheme. Any balance of cash remaining with the Company after the subscription of less than the amount required to subscribe for a further new Ordinary Share, as set out in 3(b) above, shall be held by the Company on behalf of the Participant and added to the cash available in respect of

- that Participant for the subscription of new Ordinary Shares on the next forthcoming Payment Date. No interest shall accrue or be payable by the Company in favour of any Participant on any such cash balances.
- d. The Company shall not be obliged to allot Ordinary Shares under the Scheme to the extent that the total number of Ordinary Shares allotted by the Company pursuant to the Scheme in any financial year would exceed 10% of the aggregate number of Ordinary Shares on the first day of such financial year.
  - e. The Company shall immediately after the subscription of Ordinary Shares in accordance with condition 3(a) above take all necessary steps to ensure that those Ordinary Shares shall be admitted to the Official List and to trading on the main market of the London Stock Exchange, provided that at the time of such subscription the existing Ordinary Shares in issue are so admitted to the Official List and to trading on the main market of the London Stock Exchange.
4. The Scheme Administrator shall as soon as practicable after the allotment of Ordinary Shares in accordance with condition 3 procure (i) that the Participants are entered onto the Share Register of the Company as the registered holders of those Ordinary Shares (ii) that share certificates (unless such Ordinary Shares are to be uncertified) and, where applicable, income tax vouchers ("Tax Vouchers") are sent to Participants at their own risk and (iii) that Participants receive a statement detailing:
    - a. the total number of Ordinary Shares held at the record date for which a valid election was made;
    - b. the number of Ordinary Shares allotted;
    - c. the price per Ordinary Share allotted;
    - d. the cash equivalent of the Ordinary Shares allotted; and
    - e. the date of allotment of the Ordinary Shares.
  5. All costs and expenses incurred by the Scheme Administrator in administering the Scheme will be borne by the Company.
  6. Each Participant warrants to the Scheme Administrator that all information set out in the election form (including any electronic election) on which the election to participate in the Scheme is contained is correct and to the extent any of the information changes he or she will notify the changes to the Scheme Administrator and that during the continuance of his or her participation in the Scheme he or she will comply with the provisions of condition 7 below.
  7. The right to participate in the Scheme will not be available to any person who is a citizen, resident or national of, or who has a registered address in, any jurisdiction outside the UK. It is the responsibility of any Shareholder wishing to participate in the Scheme to be satisfied as to the full observance of the laws of the relevant jurisdiction(s) in connection therewith, including obtaining any governmental or other consents which may be required and observing any other formalities needing to be observed in any such jurisdiction(s).
  8. Participants acknowledge that the Scheme Administrator is not providing a discretionary management service. Neither the Scheme Administrator nor the Company shall be responsible for any loss or damage to Participants as a result of their participation in the Scheme unless due to the negligence or wilful default of the Scheme Administrator or the Company or their respective employees and agents.
  9. Participants may:
    - a. at any time by notice to the Scheme Administrator terminate their participation in the Scheme and withdraw any funds held by the Company on their behalf; and
    - b. in respect of Ordinary Shares they hold as nominee and subject to condition 2(e), give notice to the Scheme Administrator that, in respect of a forthcoming Payment Date, their election to receive Ordinary Shares is only to apply to a specified amount due to the Participant as set out in such notice.
- Such notices shall not be effective in respect of the next forthcoming Payment Date unless it is received by the Scheme Administrator at least 15 days prior to such Payment Date. In respect of notices under (a) above, such notice will be deemed to have been served where (i) the Participant ceases to hold any Ordinary Shares or (ii) the Participant applies for further Ordinary Shares under a prospectus or top-up offer document issued by the Company, and indicates on the relevant election form applying that they do not want the shares to be issued to them to be subject to the Scheme (upon which their existing participation in the Scheme in relation to all their Ordinary Shares shall be deemed to terminate in accordance with (a) above). Upon receipt of notice of termination, all funds held by the Company on the Participant's behalf shall be returned to the Participant as soon as reasonably practical at the address set out in the register of members, subject to any deductions which the Company may be entitled or bound to make hereunder.

10. The Company shall be entitled at its absolute discretion, at any time and from time to time to:
  - a. suspend the operation of the Scheme;
  - b. terminate the Scheme without notice to the Participants; and/or
  - c. resolve to pay dividends to Participants partly by way of cash and partly by way of new Ordinary Shares pursuant to the Scheme.

11. Participants who wish to participate in the Scheme in respect of new Ordinary Shares to be issued pursuant to a prospectus or top-up offer document may tick the relevant box on the applicable application form.

Participants who wish to participate in the Scheme and who already have Ordinary Shares issued to them held in certificated form, i.e. not in CREST, should complete and sign an election form and return it no later than 15 days prior to Payment Date to The Scheme Administrator, Neville Registrars Limited, Neville House, Steelpark Road, Halesowen B62 8HD. The election form can be found on the Company's investment manager's website at <https://www.pumainvestments.co.uk>.

Participants who wish to participate in the Scheme and who already have Ordinary Shares issued to them held in uncertificated form in CREST (and was in uncertificated form as at the relevant record date) should elect to receive a dividend in the form of new Ordinary Shares by means of the CREST procedure to effect such an election. By doing so, such Shareholders confirm their election to participate in the Scheme and their acceptance of the terms and conditions of the dividend reinvestment scheme (the "Scheme Terms and Conditions"). If a Participant is a CREST sponsored member, they should consult their CREST sponsor, who will be able to take appropriate action on their behalf. Elections must contain the number of Shares on which the election is being made. If the relevant field is left blank, the election will be accepted for the full registered shareholding of the Participant as at the applicable record date.

Subject to the Scheme Terms and Conditions, Participants shall receive new Ordinary Shares instead of cash in respect of future dividends.

Elections through CREST should be received by CREST no later than 6.00 p.m. on such date that is at least 15 days before the Payment Date for the relevant dividend in respect of which a Participant wishes to make an election.

12. An election made by a Participant in accordance with condition 11 will remain valid for all dividends paid to the Participant by the Company until

such time as the Participant gives notice in writing to the Scheme Administrator that he or she no longer wishes to participate in the Scheme.

13. The Company shall be entitled to amend the Scheme Terms and Conditions on giving one month's notice in writing to all Participants. If such amendments have arisen as a result of any change in statutory or other regulatory requirements, notice of such amendment will not be given to Participants unless in the Company's opinion the change materially affects the interests of the Participants. Amendments to the Scheme Terms and Conditions which are of a formal, minor or technical nature or made to correct a manifest error and which do not adversely affect the interests of Participants may be effected without notice.

14. By completing and delivering their election the Participant:

- a. agrees to provide the Company with any information which it may request in connection with such election and to comply with legislation relating to venture capital trusts or other relevant legislation (as the same may be amended from time to time); and
- b. declares that a loan has not been made to the Participant on whose behalf the Ordinary Shares are held or any associate of either of them, which would not have been made or not have been made on the same terms but for the Participant electing to receive new Ordinary Shares and that the Ordinary Shares are being acquired for bona fide investment purposes and not as part of a scheme or arrangement the main purposes of which is the avoidance of tax.

15. Elections by individuals for Ordinary Shares should attract applicable VCT tax reliefs (depending on the particular circumstances of an individual) for the tax year in which the Ordinary Shares are allotted provided that the issue of Ordinary Shares under the Scheme is within the investor's annual £200,000 limit. Participants and beneficial owners are responsible for ascertaining their own tax status and liabilities and neither the Scheme Administrator nor the Company accepts any liability in the event that tax reliefs are not obtained. The Tax Voucher can be used to claim any relevant income tax relief either by obtaining from HM Revenue & Customs an adjustment to the Participant's tax coding under the PAYE system or by waiting until the end of the year and using the Self Assessment Tax Return.

16. The Company will, subject to conditions 9, 10 and 19, issue Ordinary Shares in respect of the whole of any dividend payable (for the avoidance of doubt, irrespective of whether the amount of allotment is greater than any maximum limits imposed from time to time to be able to benefit from any applicable VCT tax reliefs) unless the Scheme Administrator has been notified to the contrary in writing at least 15 days before a Payment Date.
17. Shareholders electing to receive Ordinary Shares rather than a cash dividend will be treated as having received a normal dividend. Shareholders qualifying for VCT tax reliefs should not be liable to income tax on shares allotted in respect of dividends from qualifying VCT shares.
18. For capital gains tax purposes, Shareholders who elect to receive Ordinary Shares instead of a cash dividend are not treated as having made a capital disposal of their existing Ordinary Shares. The new Ordinary Shares will be treated as a separate asset for capital gains purposes.
19. The Company shall not be obliged to accept any application or issue Ordinary Shares hereunder if the Directors so decide in their absolute discretion. The Company may do or refrain from doing anything which, in the reasonable opinion of the Directors, is necessary to comply with the law of any jurisdiction or any rules, regulations or requirements of any regulatory authority or other body, which is binding upon the Company or the Scheme Administrator.
20. The amount of any claim or claims a Participant has against the Company or the Scheme Administrator shall not exceed the value of such Participant's Ordinary Shares in the Scheme. Nothing in these Scheme Terms and Conditions shall exclude the Company or the Scheme Administrator from any liability caused by fraud, wilful default or negligence. Neither the Company nor the Scheme Administrator will be responsible for: (a) acting or failing to act in accordance with a court order of which the Scheme Administrator has not been notified (whatever jurisdiction may govern the court order); or (b) forged or fraudulent instructions and will be entitled to assume that instructions received purporting to be from a Shareholder (or, where relevant, a nominee) are genuine; or (c) losses, costs, damages or expenses sustained or incurred by a Shareholder (or, where relevant, a nominee) by reason of industrial action or any cause beyond the control of the Company or the Scheme Administrator, including (without limitation) any failure, interruption or delay in performance of the obligations pursuant to these Scheme Terms and Conditions resulting from the breakdown, failure or malfunction of any telecommunications or computer service or electronic payment system or CREST; or (d) any indirect or consequential loss.
21. These Scheme Terms and Conditions are for the benefit of a Participant only and shall not confer any benefits on, or be enforceable by, a third party and the rights and/or benefits a third party may have pursuant to the Contracts (Rights of Third Parties) Act 1999 are excluded to the fullest possible extent.
22. All notices and instructions to be given to the Scheme Administrator shall be in writing and delivered or posted to Neville Registrars Limited, Neville House, Steelpark Road, Halesowen B62 8HD.
23. These Scheme Terms and Conditions shall be governed by, and construed in accordance with, English law and each Participant submits to the jurisdiction of the English courts and agrees that nothing shall limit the right of the Company to bring any action, suit or proceeding arising out of or in connection with the Scheme in any other manner permitted by law or in any court of competent jurisdiction.

**Shareholders who are in any doubt about their tax position in respect of participating in the Dividend Reinvestment Scheme should consult their independent financial adviser.**

# Frequently asked questions

Replies to these frequently asked questions should be read in conjunction with the whole Prospectus and any decisions to subscribe for Shares should be based on consideration of the Prospectus as a whole.

---

## Subscribing for Shares

### **Who can apply to subscribe?**

Applicants who are 18 years old or over.

### **How much can I subscribe for in the Company?**

There is no upper limit to the amount for which you can subscribe in the Company. However the maximum income tax relief is limited to investments of £200,000 per individual investor.

### **What is the minimum investment?**

The minimum investment is £3,000 per application and thereafter in multiples of £1,000 (or such lesser amounts as the Directors may determine).

### **What is the Company's share buyback policy?**

The Offer Shares are intended to be traded on the London Stock Exchange's main market for listed securities, although it is likely that there will be an illiquid market for such shares. In such circumstances, Shareholders may find it difficult to sell their Shares in the market.

In order to improve liquidity in the Shares, the Company intends to pursue an active buyback policy, pursuant to which the Board will consider requests from Shareholders who have held their Shares for five years or more for the Company to buy back their Shares at a discount of 5% to the latest published Net Asset Value (adjusted for any subsequent dividends for which the record date has passed). Buybacks are subject to applicable regulations, market conditions at the time and the Company having both the necessary funds and distributable cash reserves available for the purpose. The making, timing and frequency of

any share buybacks will remain at the absolute discretion of the Board.

Shareholders should not rely upon any share buyback policy to offer certainty of selling their Shares at prices that reflect the underlying NAV.

As with all VCTs, the Directors expect that there will be limited demand for share buybacks from Shareholders who have been allotted Shares under the Offer within the first five years, because the sellers are likely to be either deceased Shareholders' estates or those Shareholders whose circumstances have changed (to such extent that they are willing to repay the 30% income tax relief (or for subscriptions on or after 6 April 2026, 20% income tax relief) in order to gain access to the net proceeds of the sale). In exceptional circumstances, the Board will (in its absolute discretion) consider requests from Shareholders who have held their Shares for less than five years.

## Tax relief

**Please refer to the risk factors on pages 12 to 18 of the Prospectus which explain that particular tax reliefs are dependent on individual circumstances and that the taxation rates and taxation law may be subject to change. We are not able to give you tax advice and you should consult your tax adviser in relation to this. Subject to this the following answers are a summary of the tax position relating to income tax relief for Qualifying Subscribers.**

### **What income tax relief will be given on my investment?**

The current rate of income tax relief for VCT investors is 30% of the amount invested, so long as they have paid

sufficient income tax in the tax year in which the Shares are issued to them. Investors can get a maximum of £60,000 income tax relief, being 30% on an investment of £200,000, provided that the Investor has a potential income tax liability of at least that amount for the 2025/2026 tax year. The rate of income tax relief for VCT investors will change to 20% of the amount invested from 6 April 2026.

**Will I be able to claim VCT tax relief on all my investment?**

You should receive VCT tax relief on the total amount subscribed for Shares, subject to all the factors relating to tax referred to in this document and subject to the risk factors on pages 12 to 18 of this document.

**How long do I need to hold the Shares in the Company to retain my tax relief?**

Investors need to hold their Shares for a minimum of five years to retain their tax relief.

**How do I claim back my income tax relief on my VCT investment?**
