# Manager's Investment Report

## For the half year ended 31st March 2026

### Investment Objective

The investment objective of the HL Multi-Manager Balanced Managed Trust (the "Trust") is to grow the value of your investment over any 5-year period.

### Investment policy

The Trust will invest in a broad range of global equities (such as company shares); and fixed interest securities (such as corporate, government, index linked and municipal bonds).

The Trust will not purchase unlisted shares.

The Trust's exposure to company shares will range from 40% to a maximum of 85%.

The Trust's exposure to fixed interest securities may range from between 15% to 60%.

Up to 20% of the Trust can invest in or be exposed to:

- High yield bonds;
- Asset-backed securities up to 10% (which are 'backed' (or collateralised) with existing assets (such as loans, credit card debts or leases) that tend to generate some form of income over time);
- Mortgage-backed securities up to 10% (which are 'backed' by a collection of mortgages. Investors receive periodic payments derived from the underlying mortgages);
- Contingent convertible securities up to 10% (CoCos - a debt security which may be converted into company shares or may be forced to suffer a write down of value upon the occurrence of a pre-determined event); and
- Collateralised debt obligations up to 10% (which are structured finance products backed by a pool of loans and other assets, such as mortgages, unsecured credit card debt or personal loans).
- Convertible securities up to 10% (that are not CoCos) (which give investors the right to convert their holding into ordinary shares at a pre-specified future time);

The Trust may also invest in or be exposed to:

- Trustee Receipts (which allow investors to hold equity shares of foreign companies without the need to trade directly on a foreign market);
- Money market instruments (e.g., short term loans that pay interest);
- Deposits, and cash.

A minimum of 25% of the Trust's investments should be denominated in (or hedged back to) Sterling. A minimum of 50% should be invested in "established market currencies". This includes Sterling, US Dollars and Euros.

The Trust is not constrained by issuer credit rating or the 'duration' of a bond. "Duration" measures a bond's sensitivity to movements in interest rates, and interest rate expectations.

The Trust can invest in shares of companies and bond issues from Emerging Markets countries in any region globally. Total exposure to these assets is unlikely to exceed 30% of the Trust's value.

The Trust will gain exposure to assets directly or via other regulated collective investment schemes. The collective investment schemes in which the Trust may invest can take a variety of forms. They may be:

- Open or closed-ended
- Exchange traded (ETFs)
- Actively managed or passively managed

## Manager's Investment Report (continued)

### For the half year ended 31st March 2026

#### Investment policy (continued)

- Money market funds.

They may be managed or operated by the Manager or other third-party managers and will be established in Europe, the UK, Jersey, or Guernsey. The Trust may also have exposure to real estate investment trusts.

The Trust may also invest in derivative instruments and forwards transactions for efficient portfolio management purposes (EPM) including "hedging" techniques. EPM and the hedging techniques used, aim to reduce the risks or costs of managing the Trust.

Where the Trust invests in other collective investment schemes, those schemes may use derivative instruments for EPM or investment purposes.

The Manager may allocate all or a portion of the Trust's assets to one or more Sub-Advisers. Each Sub-Adviser will use its own methodology for managing its allocation. Sub-Advisers will be subject to the Manager's oversight and the Trust's investment objective and policy. The Manager may choose to retain the investment management of some, or all, of the Trust's portfolio.

The Trust is actively managed. This means that the Manager, or delegated Sub-Adviser, decides which investments to buy and sell, and when. The Manager selects investments on the basis of their potential to deliver a long-term return.

The Manager chooses the Trust's investments based on a combination of their long-term view and any short-term investment opportunities they identify. The Manager considers the appropriate regional investment mix as well as how best to implement that position. For example, by determining whether to invest actively or passively.

The Manager may invest in passive funds where:

- Small market size would make active management inefficient;
- The size of the Trust's investment in the particular market is small;
- There is limited choice of active managers in that market;
- The cost of investment in an active fund would be prohibitive; or
- For liquidity or risk management purposes.

The percentage investment levels in different asset classes described above are not guaranteed. This relates to both the equity and fixed interest exposures. This also applies to currency exposure and to the level of exposure to companies based in emerging market countries. There may be periods when the Trust's total exposure is higher or lower than the percentage levels stated. This could be due to market movements or in extraordinary market conditions. For example, where there is not a steady and constant flow of investment activity or where there is high volatility and a lack of regular pricing information.

# Manager's Investment Report (continued)

## For the half year ended 31st March 2026

### Performance review

Over the six-month period to 31st March 2026, the price of the accumulation units has increased from 330.95 pence to 333.10 pence, which represents a rise of 0.65%. Over the same period, the IA Mixed Investment 40-85% Shares peer group returned an average of 1.70%.

Since the close of the initial offer period (5th January 2001) to 31st March 2026, the price of the accumulation units has increased from 100.00 pence to 333.10 pence, which represents a rise of 233.10%. Over the same period, the IA Mixed Investment 40-85% peer group returned an average gain of 218.95%.

	31/03/21 to 31/03/22	31/03/22 to 31/03/23	31/03/23 to 31/03/24	31/03/24 to 31/03/25	31/03/25 to 31/03/26
HL Multi-Manager Balanced Managed Trust	1.88%	-2.11%	13.09%	3.11%	10.99%
IA Mixed Investment 40-85% Shares	5.49%	-4.58%	10.07%	3.33%	11.24%

Past performance is not a guide to future returns.

The percentages in brackets show the equivalent sector comparatives as at 30th September 2025.

All investments are in accumulation shares/units unless otherwise stated.

\* Delisted shares/units.

~ Related party holding.

≠ Further to the September 2025 Link Scheme Supervisors update, the March 2026 update has been issued at <https://ifwoodfordfundscheme.com/wp-content/uploads/2026/03/LFSL-scheme-supervisors-report-5-Mar-26.pdf>.

The reserve amount has been reassessed as needing to be maintained at £46.5m (as per the September 2025 report) so no further distribution is expected for now, with the next update expected to be in September 2026.

## General Information

Launch Date:	22nd December 2000
Accounting Periods:	Interim – 31st March Final – 30th September
Distribution Dates:	Interim – 31st May Final – 30th November
Minimum Initial Investment:	£150,000*
Management Charges:	Up to £1 billion – 0.72% Greater than £1 billion and up to £2 billion – 0.67% Greater than £2 billion and up to £3 billion – 0.62% Over £3 billion – 0.58%

\* Lower amounts may be permitted when investing via platforms or other nominee companies.

The Trustee's fee is 0.01% of the first £100 million and 0.0075% thereafter of the net asset value of the Trust per annum, plus VAT.

The Manager is not permitted to levy a redemption charge or increase the rates of its initial or annual charges unless 60 days' prior written notice of the introduction of the new charge and the date of its commencement has been given to all unitholders and the Prospectus has been amended to reflect the change.

Full details of the underlying charges are set out in the Key Investor Information for the Trust, which is published on HL's website and is available to existing holders of the fund by accessing My Account. Copies may be obtained from Hargreaves Lansdown Fund Managers Limited, Sunderland SR43 4AS or directly from the Manager - Hargreaves Lansdown Fund Managers Limited, One College Square South, Anchor Road, Bristol, BS1 5HL.

### Unit Price

Units in the Trust are single-priced. This means that (subject to any dilution adjustment and initial charge) the price of each unit for both buying and selling purposes will be the same and determined by reference to the particular valuation point. The price of each unit of any class will be calculated by reference to the proportion of the net asset value of the Trust attributable to units of that class by:

- taking the proportion of the net asset value of the relevant Trust attributable to the units of the class concerned at the valuation point of that Trust;
- dividing the result by the number of units of the relevant class in issue immediately before the valuation point concerned; and
- increasing or decreasing the result by any dilution adjustment determined by the Manager.

The Trust is normally valued at 10:30 pm each day for the purpose of determining the unit price. With the agreement of the Trustee, the Trust may be valued at other times.

### Dealing in Units

Dealing confirmations are issued for all purchases and sales of units and will be posted within 24 hours of the next valuation point following receipt of your application.

The units of the Trust are non-certificated.

Units may be sold back to the Manager at any time at the price applicable at the valuation point following receipt of instructions.

You will receive a dealing confirmation setting out the details and payment will follow, normally within four working days of receipt of the signed form of renunciation.

Daily prices are currently available from the Hargreaves Lansdown website ([www.hl.co.uk](http://www.hl.co.uk)), HL App (HL Live) and our Helpdesk on 0117 900 9000.

## General Information (continued)

### Cancellation Rights

If you receive financial advice on a face-to-face basis regarding your investment, you will have a right to change your mind. If you receive financial advice on a non face-to-face basis, we will also allow you the right to cancel your investment. If you decide to cancel your contract during the 14 days after the date on which you receive a cancellation notice from us and the value of your investment has fallen at the time we receive your completed cancellation notice, you will not receive a full refund of your investment and an amount equal to any fall in value will be deducted from the sum you originally invested.

### Taxation - Income

Income earned by unitholders from the Trust is liable to UK Income Tax at the rate applicable for the individual unitholders.

### Taxation - Capital Gains

There is no tax on capital gains within the Trust. Gains realised on disposal of units by unitholders who are UK resident for taxation purposes may be liable to Capital Gains Tax.

All taxation information in this Report is based on current legislation and may be subject to change. Any tax reliefs referred to are those currently applying. Their value depends on the individual circumstances of the unitholder.

### Report and Scheme Particulars

Copies of the Scheme Particulars and Interim and Annual Report and Financial Statements may be obtained from the Manager at the address shown at the beginning of this Report.

The maintenance and integrity of the Hargreaves Lansdown Group Limited website is the responsibility of the Directors of Hargreaves Lansdown Group Limited; the work carried out by the Auditor does not involve consideration of these matters and, accordingly, the Auditor accepts no responsibility for any changes that may have occurred to the Financial Statements since they were initially presented on the website.

### Commission

Commission may be payable to authorised intermediaries, rates are available on request and details are set out on the dealing confirmation.

### Status

The Manager can only provide information on its own range of Trusts to retail clients.

### Assessment of Value

For each of its funds, Hargreaves Lansdown Fund Managers Limited (HLFM) published an Assessment of Value covering the financial year ended 30th September 2025. These statements are available at [www.hl.co.uk/funds/hl-funds/multi-manager-funds/other-documents](http://www.hl.co.uk/funds/hl-funds/multi-manager-funds/other-documents).

### Taskforce on Climate-related Financial Disclosures

Under Financial Conduct Authority (FCA) rules, Hargreaves Lansdown Fund Managers (HLFM) must publish TCFD reports at both the entity and fund level. These reports help investors understand the climate-related risks and opportunities that could affect our business and our funds over time.

You can find our entity-level TCFD report and individual fund reports (otherwise known as product-level reports) at <https://www.hl.co.uk/responsible-business/esg>, along with other important documents, including our ESG Investment Policy, Stewardship and Engagement Policy and Climate Transition Plan.

## Important Investment Notes

You should be aware of the risks involved in investing in the Trust. These risk warnings must not be taken to be comprehensive, as new risks may arise in the future which could not have been anticipated in advance. If you have any doubts over the suitability of an investment please contact a financial adviser for advice.

The price of units (and the income from them) can go down as well as up, and are not guaranteed. You may not receive back the amount you invest in the Trust.

An investment in the Trust is not intended to be a complete investment programme. Units should be regarded by you as a medium-to-long term investment.

Past performance is not a guide to future performance. The Trust's investment objective is an intended result but there is no guarantee that such a result will be achieved. There are no express or implied assurances as to the likelihood of achieving the Trust's investment objectives, as this will depend (in part) on evolving market conditions and the available investment opportunities over time.

The Trust's net asset value can be influenced by factors such as stock market fluctuations, political and economic events, corporate earnings reports and catastrophic events. This means that in any particular period, the Trust may suffer losses and should not be regarded as a short term investment.

In extreme liquidity conditions, redemptions in the underlying assets, and/or a Trust itself, may need to be deferred or suspended.

Economic factors such as changes in interest rates, inflation, deflation and supply and demand can affect the price of all investments, and so affect the value of your investment in the Trust. As with any investment, inflation will reduce the real value (i.e. purchasing power) of the capital over time.

The Trust is potentially exposed to adverse movements in equity, bond, commodity, currency and other market prices, indices or rates (market risk) or changes in the anticipated or calculated volatility of these movements (volatility risk). This could result in the Trust losing value.

The Trust may deduct charges from capital rather than income. Whilst this policy may allow more income to be distributed to unitholders, it may also have the effect of reducing capital and potential capital growth, as well as potentially increasing capital losses.

The Trust conducts transactions with various counterparties and there is a risk that a counterparty will not deliver an investment (for purchases by the Trust) or cash (for sales by the Trust) after the Trust has fulfilled its responsibilities.

This document is provided solely to enable investors to make their own investment decisions. It is not personal advice. These investments are not suitable for everyone. If you are in any doubt about suitability, you should seek expert advice. Please ensure you read the full Key Investor Information before placing any investment instruction.

## Authorised Status

The Trust is an authorised unit trust scheme under Section 243 of the Financial Services and Markets Act 2000.

The Trust is a 'Non-UCITS Retail Scheme' under the Financial Conduct Authority's Collective Investment Schemes Sourcebook ("COLL") Regulations.

The Trust is categorised as an alternative investment fund under Directive 2011/61/EU of the European Parliament and of the Council of 8th June 2011 on Alternative Investment Fund Managers and amending Directives 2003/41/EC and 2009/65/EC and Regulations (EC) No 1060/2009 and (EU) No 1095/2010 and Commission Delegated Regulation (EU) No 231/2013 of 19th December 2012 supplementing the AIFM Directive with regard to exemptions, general operating conditions, depositaries, leverage, transparency and supervision (the "AIFMD"). The Manager undertakes portfolio and risk management for the Trust and is therefore an alternative investment fund manager (AIFM) within the terms of AIFMD. The Manager will manage the Trust in accordance with the provisions of the AIFMD, The Alternative Investment Fund Managers Regulations 2013 and the FCA Rules.

## Trust Information

The Comparative Tables on pages 12 and 13 give the performance of each active unit class in the Trust.

The 'Return after charges' disclosed in the Comparative Tables is calculated as the return after operating charges per unit divided by the opening net asset value per unit. It differs from the Trust's performance disclosed in the Manager's Investment report, which is calculated based on the latest published price.

Portfolio transaction costs are incurred when investments are bought or sold by a Trust in order to achieve the investment objective. These transaction costs affect an investor in different ways depending on whether they are joining, leaving or continuing with their investment in the Trust.

Direct transaction costs include broker commission and taxes. Broker commission includes the fee paid to a broker to execute the trades.

In addition, there are indirect portfolio transaction costs arising from the 'dealing spread' – the difference between the buying and selling prices of underlying investments in the portfolio. Unlike shares whereby broker commissions and stamp duty are paid by the Trust on each transaction, other types of investments (such as bonds, money instruments, derivatives, collective investment schemes) do not have separately identifiable transaction costs; these costs form part of the dealing spread. Dealing spreads vary considerably depending on the transaction value and money market sentiment.

Included within the OCF are synthetic costs which include the OCF of the underlying funds weighted on the basis of their investment proportion. The annualised OCF for the financial year end 2024 is 1.06%.

## Trust Information (continued)

### Synthetic Risk and Reward Indicator ("SRRI")

The Trust is ranked at 4 because funds of this type have experienced moderate rises and falls in value in the past.

The Trust's risk category has been calculated using historical data, which may not be a reliable indication of the future risk profile of the Trust. The risk and reward rating remain the same from the last reporting period.

The Trust's category is not guaranteed to remain the same and may change over time.

Even a trust in the lowest category is not a risk-free investment.

The value of your investment and any income you take from it may fall as well as rise and is not guaranteed.

## **Certification of the Financial Statements by Directors of the Manager**

In accordance with the requirements of the Financial Conduct Authority's Collective Investment Schemes Sourcebook, we hereby certify the financial statements on behalf of the Directors of Hargreaves Lansdown Fund Managers Limited.
